Table of Contents

Welcome to McLaren Health Plan (MHP)! We are dedicated to partnering with providers such as you, who will offer high-quality, accessible and cost-effective health care throughout our service area.

Our mission is to enhance our members' health status in the communities we serve by promoting:

- Preventive care and well-being
- Access to quality health services
- Strong relationships with our members, providers and employers

Our vision is to be a premier health plan committed, to providing:

- The best value for the members we serve
- The utmost respect and personal attention to our members, providers and employees
- The highest standard of quality, service and care

About MHP

Background

- Michigan Health Maintenance Organization (HMO) serving members throughout lower Michigan
- Product Portfolio:
  - MHP: Medicaid HMO
  - MHP Community: Commercial HMO and Point of Service (POS)
  - McLaren Health Advantage: Self-Funded Preferred Provider Organization (PPO)
  - McLaren Advantage: HMO (Medicare Advantage Product)
  - Healthy Michigan Plan
- Combined membership exceeds 237,000
- Current network of over 48,000 providers and over 135 hospitals throughout lower Michigan
- Operates at the lowest administrative cost among all Michigan HMOs

Physician Reimbursement

- Commercial Products: Primary Care Provider (PCP) and Specialist reimbursement paid FFS at MHP's commercial fee schedule, no risk, no withhold
- Medicaid Product: PCP and Specialist reimbursement paid at the Michigan Medicaid FFS rates and methodology, no withhold
- PCP Pay-for-Performance (P4P) program that is simple and achievable, up to $2 per member per month

MHP's Philosophy

- Providers want to care for patients, not be insurance companies
- Insurance companies should hold the risk of insuring health benefits
- Providers strive to "do the right thing for the right reasons"
- Local care should be provided in the local community, whenever clinically appropriate
- Premium dollars should be spent on health care services, not administrative overhead

Other Unique Points of Interest

- E-prescribing available through Surescripts®
- Every PCP office is assigned an MHP nurse to provide personalized support
- An MHP RN available to attend employer open enrollment meetings to answer employees' clinical questions and facilitate their transition to MHP
- New members receive a welcome call within first month of enrolling with MHP to assess their health status
- MHP Health Care Coaches available for every member
- Early Pregnancy Program connects our nurse with every pregnant mother from prenatal to post-natal care (Commercial and Medicaid)
- Complex Case Management program for higher risk members
- Online verification for member eligibility or to view status of a claim
- Outreach team available to assist providers to increase quality ratings
- Every provider office is assigned a Network Development Coordinator to provide personalized support
- Offer electronic fund transfer and electronic remittance options

Products Overview

McLaren Medicaid

MHP is contracted with the state of Michigan to provide medical services to eligible Medicaid recipients. MHP provides administrative services and arranges for the provision of all Medicaid covered services, along with some additional benefits, including transportation. The PCP provides the member with a medical home.

McLaren Healthy Michigan Plan

The Healthy Michigan Plan covers people with income up to 133 percent of the Federal Poverty Level who are:

- Age 19-64
- Not currently eligible for other Medicaid programs
- Not in or qualified for Medicare
- Not pregnant when applying for the Healthy Michigan Plan
- Residents of the state of Michigan

MHP Community - HMO

MHP's commercial HMO covers a comprehensive set of health care services obtained through a designated provider network. Each MHP HMO member selects a PCP, who is responsible for coordinating the member's health care. The PCP provides the member with a medical home.

MHP Community - Point of Service (POS)

MHP's POS product offers the member the most flexibility in obtaining care. Although the member must still select a PCP, for each episode of medical care the member determines his/her level of coverage based on the "point" at which the member receives the "service" – PCP-coordinated (HMO-like) care within the network, or self-referred care within or outside the network.

McLaren Rewards Program

We offer several HMO plans on the Michigan Health Insurance Marketplace (sometimes referred to as the "Exchange"). Some individuals plans and all small group products are "Rewards" products. With Rewards, members can choose from a high-quality network of providers and hospitals with copayments and deductibles as a part of the standard plan design. Copayment, deductibles and coinsurance are waived when a member chooses to seek care from a designated "Rewards" provider. The program greatly reduces member out-of-pocket costs while providing tremendous benefits and access to quality care. If you want more information about becoming a Rewards Provider, call your Network Development Coordinator.

McLaren Health Advantage

A self-funded PPO that is utilized by McLaren Health Care Corporation for employee coverage. Reimbursement is fee-for-service with rates that are competitive with other local payers.

Products Overview *(continued)*

McLaren Advantage (HMO)

McLaren Advantage (HMO) is a Medicare Advantage HMO. Members must select a PCP. Reimbursement is based on the rates established and published by the Centers for Medicare and Medicaid Services (CMS). Covered services and exclusions for Medicare Advantage members are listed in the Evidence of Coverage (EOC). The EOC is located on our website at McLarenAdvantage.org.

Provider Manual

The Provider Manual can be found on McLarenHealthPlan.org under the Provider tab. Choose any line of business, then Provider Information. On the Provider Information page in the document section you will find the link for the "McLaren Health Plan Provider Manual." This Provider Manual contains a great deal of information to assist in navigating the requirements of MHP, including:

- McLaren Health Plan Facts and Information
- Departmental Contacts
- Member ID Cards
- Plan Definitions
- Requirements
- Coverage Responsibilities
- Immunizations
- Referral and Authorization Requirements
- General Information
- Claim Information
- Provider Appeals
- Fraud, Waste and Abuse
- Forms

Eligibility

Each MHP member is issued a member identification card bearing the member's identification number. Member eligibility can be verified by accessing the online eligibility system, FACTSWeb or the Provider Portal. An application to obtain a login and password to these systems has been included in the welcome packet of information. Eligibility verification or a Provider Portal Access application can be obtained by contacting Customer Service at (888) 327-0671.

Participating Contracted Providers

MHP has contracted with an extensive network of quality providers to deliver health care to its members. Unless the member's benefit otherwise allows (i.e., POS or PPO), members usually receive non-emergency health care services from providers in the McLaren Health Plan network who are listed in the Provider Directory located on our website. In certain circumstances, MHP will cover services provided by a non-network provider if the service is preauthorized by the Plan.

Medical Management

Medical Management supports the needs of both the member and the provider network. Medical Management offers support to coordinate our members' care and to facilitate access to appropriate services through the resources of case management, complex case management and utilization management.

Case Management

Through our Case Management services, the nurses promote health management of our members by focusing on early assessment for chronic disease and special needs, and by providing education regarding preventive services. In addition to this member focus, the nurses are available to assist our provider network with health care delivery to our members. The nurses are available for members 24 hours per day, seven days a week, and they work under the direction of MHP's Chief Medical Officer.

A Case Management Nurse is assigned to each PCP's office to assist the physician and staff in managing their MHP patients. In addition, all McLaren Advantage (HMO) members are enrolled in Case Management and a health assessment is completed within 90 days of their effective date with McLaren Advantage (HMO).

Complex Case Management

Specially trained Complex Case Management (CCM) nurses are available to MHP members who have complex care needs. Members considered for CCM include but are not limited to:

- Members listed for a transplant
- Members with frequent hospitalizations
- Members with frequent ER visits
- Children's Special Healthcare Services (CSHCS) members

Disease Management

MHP has several Disease Management programs, including Asthma, Diabetes, Depression, Hypertension and Obesity. Members receive educational mailings, ongoing nurse contacts and pharmacy management. McLaren Moms, MHP's maternity management program, works to ensure that members receive timely prenatal and postpartum care. If you have a member you would like in the Case Management or Disease Management programs, please call (888) 327-0671.

Utilization Management

Medical Management, through its utilization management processes, is structured to deliver fair, impartial and consistent decisions that affect the health care of our members. Nationally recognized evidence-based criteria are used when determining the necessity of medical or behavioral health services. The criteria are available to you upon request.

If there is a utilization denial, you will be provided with written notification and the specific reason for the denial, as well as your appeal rights. In addition, MHP's Chief Medical Officer, or an appropriate practitioner, will be available by phone to discuss any utilization issues and the criteria utilized in making the decision. Utilization decision-making is based solely on appropriateness of care and service and existence of coverage. We do not specifically reward practitioners or other individuals for issuing denials of coverage, service or care. There are no financial incentives for utilization decision-makers to encourage decisions that result in underutilization.

You can reach Medical Management by calling (888) 327-0671 and following the prompts. Medical Management's business hours are 8:30 a.m. to 5 p.m., Monday through Friday.

Quality Management

MHP submits claims and medical review data to the National Committee for Quality Assurance (NCQA). This NCQA reporting requirement, defined as the Healthcare Effectiveness Data and Information Set (HEDIS®), is one of the measurements utilized to assess how well MHP is delivering health care. NCQA is an independent, not-for-profit organization dedicated to measuring the quality of health care.

Many HEDIS measures may include only a small number of a practitioner's patients. This is due to a continuous enrollment requirement in the specifications and sampling of the eligible population.

Some of the HEDIS measures can be calculated only by administrative results (claims data submitted by a practitioner) and some measures can be calculated through the hybrid method (a combination of claim submissions and medical record review).

To help physicians better understand the HEDIS measures, we have included a summary table with the Quality Indicator that is being measured. We hope this information is useful.

In addition, we have several incentive programs for PCPs related to the HEDIS measures described in the summary table. If you have any questions regarding HEDIS specifications or would like more information on specifications or incentive programs that are available, please contact your Network Development Coordinator.

Incentive Summary

The following are the current Primary Care Physician Incentives offered by McLaren Health Plan.

2017 PROVIDER INCENTIVE PROGRAMS

LINE OF BUSINESS	INITIATIVE	INCENTIVE	HOW
Medicaid	**Adult BMI**	$5 for each member, annually	Based on billed claim; Paid at time of submission

*Only Specialists may perform these services.

Diabetic Monitors and Supplies

MHP utilizes Bayer HealthCare as our sole supplier for diabetic monitors and diabetic monitor supplies for all lines of business. To request a monitor for a member, please contact Customer Service at (888) 327-0671. There are a few exceptions to the requirement to utilize Bayer for monitors and supplies.
They include:

- Children 18 years and younger coming to one of our health plans and already trained on another meter
- Blind or serious vision impairments requiring the use of a talking meter
- Insulin Pump users coming to the health plan with a meter that speaks to their pump

If you have any questions, please call Customer Service at (888) 327-0671.

Pharmaceutical Management

Pharmaceutical Management promotes the use of the most clinically appropriate, safe and cost-effective medications. The MHP Formulary is utilized as the fundamental resource for our pharmacy management for all products. MHP's Formulary has been developed by physicians representing various specialties, and approved by our Quality Improvement Committee. The MHP Formulary is utilized as a resource for pharmacy management with quality and cost-effectiveness as it's on the primary goal. Formularies are product specific.

All formularies consist of:

- Prescribing Protocols
- Full Positive Listing and a Quick Formulary Reference Guide
- Request for Prior Authorization Procedure and Form

Formularies for each product are available on our website, or you can request a hard copy by calling Customer Service at (888) 327-0671.

Referral/Authorization Requirements

MHP promotes the traditional primary care relationship between physicians and their patients. PCPs are generally responsible to issue referrals for care outside of the PCP office setting. MHP recommends that the PCP coordinate the entire episode of care to ensure the timely initiation and appropriate utilization of health services. We do recognize that there are certain situations and circumstances in which the specialist provider would be more appropriate to request services. Therefore, referrals and requests for preauthorization are also accepted from the specialist provider.

The Provider Referral Form is utilized by MHP to obtain preauthorization when certain services outside of the PCP office setting are requested. The Provider Referral Form is available electronically for completion and submission to MHP. A quick link to the referral form has been provided on the Provider menu at McLarenHealthPlan.org. The form can be completed and submitted online or printed from the website and submitted via fax to (877) 502-1567. Use of the electronic form is secure and is the preferred method of submitting requests for preauthorization of services to MHP. Urgent requests for preauthorization may be made by contacting Medical Management at (888) 327-0671. MHP Medical Management strives to respond to provider requests for preauthorization of services in an efficient and prompt manner.

MHP utilizes the following time frames for timeliness of non-behavioral healthcare utilization management decision making.

- For non-urgent pre-service decisions, MHP makes decisions within 14 calendar days of receipt of the request.
- For urgent pre-service decisions, MHP makes decisions within 72 hours of receipt of the request.
- For urgent concurrent review, MHP makes decisions within 24 hours of the request.
- For post-service decisions, MHP makes decisions within 30 calendar days of receipt of the request.

Providers will be notified by fax of the utilization management decision.

A detailed list of services requiring preauthorization per product line is listed along with the downlaodable MHP Referral Form. In addition, MHP has a list by CPT Code of outpatient services requiring preauthorization. Both of these document links can be found on the MHP electronic Referral Form page. A quick link for the Referral Form has been provided for your convenience in the Provider menu on McLarenHealthPlan.org

Remember:

- With the exception of hospitalization for delivery, all inpatient services require preauthorization
- All out-of-network services require preauthorization
- All “not otherwise classified” (NOC), “unlisted” or “unspecified” codes require clinical review
- All services/procedures billed to MHP must be both medically necessary and coded appropriately

MHP reviews paid claims to ensure compliance and accuracy.

Claims Payment

In general, for Medicaid and Healthy Michigan, MHP follows the claims reimbursement policies and procedures set forth by the Michigan Department of Health and Human Services (MDHHS) and Centers for Medicare and Medicaid Services (CMS). Reimbursement for Medicaid and Medicare is based on the prevailing state of Michigan Medicaid or Medicare fee schedule. You are expected to submit your MHP claims electronically.

MHP accepts both paper (CMS 1500 and UB-04 claim forms) and electronic claims. All claims must be submitted and received by MHP no later than one year from the date of service to be eligible for reimbursement. Claims received that exceed this filing limit may be denied.

Use a CMS 1500 Form for:	Use a UB-04 Form for:
Professional services provided by physicians, behavioral health providers, DME providers, laboratories, ambulances, etc.	Services provided by hospitals (inpatient/ outpatient), ambulatory surgery centers, hospices, home health care companies, skilled nursing facilities and dialysis

Although we prefer receiving claims electronically, if you do submit them on paper, all paper claims should be mailed to:

McLaren Health Plan, Inc.
P.O. Box 1511
Flint, MI 48501-1511

Handwritten claims will not be accepted. Paper claims must be typed and mailed to the address provided above.

Paper claim submission must be done using the most current form version as designated by the Centers for Medicare and Medicaid Services (CMS) and the National Uniform Claim Committee (NUCC).

MHP receives Electronic Data Interchange (EDI) claims from our clearinghouse, ENS Optum Insight. For claims filed electronically through MHP's EDI vendors, the claims payment process does not differ from paper claim submissions. However, electronic claims may require providers to put the information in different "fields" or "loops." Refer to the Clearinghouse Information section for detailed instructions for submitting electronic claims.

Our Payer IDs for electronic claims are:

- McLaren Medicaid – 3833C
- MHP Community (commercial) – 38338
- McLaren Health Advantage – 3833A
- McLaren Advantage (HMO) – 3833R

Since you may choose to contract with a different clearinghouse, you must ask whether your clearinghouse has a forwarding arrangement with ENS Optum Insight. A forwarding arrangement allows your clearinghouse to pass your claims on to ours so that we will receive them. Please visit our website at McLarenHealthPlan.org for an updated listing of ENS Optum Insight affiliated clearinghouses.

If you have questions about becoming a customer at ENS Optum Insight or have problems with claim rejections that were received by ENS Optum Insight, contact http://enshealth.com or (866) 367-9778.

What's on the Web?

MHP is in the process of improving our website. MHP utilizes our website as a means to inform, educate and engage our providers, members and employers. As a member of our provider network, we appreciate that you provide high-quality, accessible and cost-effective health services to our membership.
