

McLaren Flint is offering EMS Education courses beginning in August.

The McLaren Flint EMS Education Program has been in place since 1988 and offers students the opportunity to train at one of the largest programs in Michigan. In addition to classroom learning, students' clinical experience is enhanced with numerous hands-on opportunities. During clinical rotations, students will gain the knowledge and confidence they need by working closely with hospital staff, physicians and local EMS providers.

All of our graduates are eligible to challenge the National Registry of EMT Exam at the provider level they complete.

Call (810) 342-2540 with any questions.
