

# McLaren Health Plan Joins the Million Hearts Campaign

McLaren Health Plan has joined with other national partners in the “Million Hearts” Campaign which has the goal of preventing one million heart attacks and strokes by 2017. We will work towards this goal for our high risk Medicare Advantage members by utilizing our Cardiovascular Program for members with hypertension, coronary atherosclerosis or heart failure and our Hypertension Program for members with hypertension which are part of our Chronic Care Improvement Program (CCIP) and the Quality Improvement Project (QIP). McLaren Health Plan will send your patients educational mailings every six months and will call them for follow-up if they are part of our CCIP program.

If you have any questions or would like to learn more about our programs, please call our Case Management team at (888) 327-0671.
