A Provider’s Guide to McLaren Services
Care Connect Overview

The health care providers and coordinating staff in our community have requested a central, easy to use resource for referring their patients into our system of care. We have launched Care Connect to help answer that request. Care Connect is a collection of initiatives - centralized scheduling, an central online referral resource, and more - designed to make it easier to find McLaren services, schedule tests and procedures and help meet the expectations of the health care community and your patients.

The materials contained in this document are designed to provide physicians and their office staff members with helpful information about McLaren Greater Lansing’s health care services, referral processes, physician services, contact information and more. If you don’t find what you’re looking for or need additional information, please call (517) 975-9898, or visit mclaren.org/careconnect.

Cardiovascular Services

McLaren Greater Lansing offers the most comprehensive cardiovascular services anywhere in mid-Michigan. We have one of the most talented teams of cardiac and vascular specialists in the area and conduct important research and clinical trials. When your patients need specialized cardiovascular care, there’s no better choice than McLaren Greater Lansing.

In 2007, we broadened our commitment to providing premier cardiac care with the opening of the Chi Heart & Surgery Center. At every corner, this 158,000-square-foot facility reflects state-of-the-art cardiac excellence. The center has 10 operating suites and five cardiac catheterization labs featuring cutting-edge technology and interventional radiology capabilities. The center also offers an on-site pharmacy, 47 private patient rooms, a dedicated outpatient floor complete with the latest imaging and noninvasive technology, and consolidated radiology services.
Atrial Fibrillation Program

LOCATION: McLaren Greater Lansing
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 483-4780
Fax: (517) 483-4861

Atrial fibrillation (A-fib) is the most common form of adult heart arrhythmia, or irregular heartbeat. At McLaren Greater Lansing, we offer the latest and most technologically advanced A-fib tests, treatments and procedures. If a diagnosis of A-fib is made, we have a number of treatment options available to patients, including:

› Medications, controlling heart rhythm, heart rate and blood clotting
› Device implants, such as pacemakers
› Catheter ablation
› Surgical ablation, including a new minimally invasive procedure

Referral instructions

To refer a patient, call (517) 483-4780, ext. 7660.
Cardiopulmonary Diagnostics

LOCATION: Chi Heart & Surgery Center, Patient Entrance
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-6653
Fax: (517) 975-6660

McLaren Cardiovascular Group
2134 Hampton Place
Okemos, MI 48864
(517) 347-3000
(517) 347-8393

To help diagnose cardiopulmonary conditions, the professionals at McLaren Greater Lansing offer a range of outpatient tests at two locations.

Diagnostic services offered at the Chi Heart & Surgery Center:

- Bronchoscopies
- Echocardiograms
- Nuclear stress testing
- Pulmonary function testing
- Pulmonary rehabilitation
- Cardiac stress testing
- Pulmonary stress testing

Diagnostic services offered at McLaren Cardiovascular Group in Okemos:

- Echocardiograms
- Nuclear stress testing
- Additional forms of stress testing

Referral instructions

To schedule a test, call (517) 975-6653 between 8 a.m. and 5 p.m. After scheduling an appointment, fax a completed referral form to (517) 975-6660.
The Heart Failure Center

LOCATION:  McLaren Orthopedic Hospital
2727 S. Pennsylvania Ave., Suite 1014
Lansing, MI 48910
Phone: (517) 975-2220
Fax: (517) 975-2222

Operating for more than 10 years, the Heart Failure Center at McLaren Orthopedic Hospital provides patients at risk of heart failure with an extensive range of medical and educational services. The center offers care and expertise from highly trained nurses and physicians.

FREE EDUCATIONAL CLASSES

The Heart Failure Center offers free classes on important topics related to heart failure. In the past, class topics have included:

- Lifestyle adjustments
- Reducing sodium and fluids
- Exercise
- Smoking cessation
- Recognizing and overcoming obstacles related to heart failure

FREE HEART FAILURE SUPPORT GROUP

The Heart Failure Center also coordinates a helpful support group that meets every other month. At meetings, guest speakers share their knowledge and experience on valuable topics related to heart failure.

Referral instructions

All medical services must be initiated and discontinued by a physician’s order and provided under the direction and supervision of the ordering physician. To refer a patient or register for classes, call (517) 975-2220.
McLaren Cardiothoracic & Vascular Surgeons

LOCATION:
405 W. Greenlawn Ave., Suite 305
Lansing, MI 48910
Phone: (517) 483-4780
Fax: (517) 483-4861

Throughout Michigan, McLaren Greater Lansing is renowned for providing exceptional cardiac care. Undoubtedly, much of our success stems from maintaining a remarkable team of cardiothoracic and vascular surgeons. This talented and experienced group of experts is committed to delivering the very best and latest in cardiovascular surgery.

Referral instructions
To refer a patient, call (517) 483-4780, ext. 7660.
McLaren Cardiovascular Group

LOCATION: 2134 Hampton Place
Okemos, MI 48864
Phone: (517) 347-3000
Fax: (517) 347-8393

Additional clinic sites:
› Charlotte
› Eaton Rapids
› Grand Ledge
› Lansing
› Perry

McLaren Cardiovascular Group in Lansing pairs trusted cardiologists with the region’s finest cardiothoracic and vascular surgeons to provide patients with unparalleled quality and expertise in the prevention, diagnosis and treatment of cardiovascular and heart disease.

Referral instructions

To refer a patient, call (517) 347-3000 or visit lansingheart.org.
PAD Screenings

LOCATION: Chi Heart & Surgery Center
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-8304
Screenings offered: Call for dates.

Eight to 12 million Americans have peripheral arterial disease (PAD), a progressive condition that leads to plaque buildup and causes the arteries to clog. PAD increases your risk of heart attack, stroke and even death. Because PAD often strikes without symptoms or warning signs, it’s important to get screened.

McLaren Greater Lansing provides the most comprehensive and the only accredited PAD screening program available in mid-Michigan. Our program is a better value, too, offering more life-saving tests and services, including:

- Heart rate and blood pressure screenings
- Stroke screening with carotid ultrasound
- Aneurysm screening with abdominal aortic ultrasound
- Leg circulation screening with ankle brachial index
- Nurse consultation

Note: An optional cardiac risk appraisal and complete cholesterol profile and fasting glucose may be added to the PAD screening for a small additional fee.

Referral instructions

A physician referral is not required. To schedule a PAD screening, call (517) 975-8304. Tests are not covered by insurance.
Vascular Lab

LOCATION:  McLaren Greater Lansing
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-9400
Fax: (517) 975-9405

McLaren Greater Lansing’s Vascular Lab is Michigan’s only hospital lab to receive “gold medal” recognition from the Intersocietal Commission for the Accreditation of Vascular Laboratories in four or more areas of noninvasive diagnostic testing and screening for the early diagnosis of cardiovascular diseases. Named a Society of Vascular Ultrasound Signature Lab, the Vascular Lab at McLaren Greater Lansing is staffed with highly skilled vascular technologists, and only board-certified cardiac and vascular surgeons interpret test results.

The following tests are offered at McLaren Greater Lansing:

➤ Renal artery Doppler
➤ Abdominal arterial and venous Doppler
➤ Carotid artery Doppler
➤ Peripheral artery Doppler (at rest or with exercise)
➤ Peripheral venous Doppler
➤ Peripheral arterial disease (PAD) screening

The following tests are offered at McLaren Cardiovascular Group in Okemos:

➤ Abdominal arterial and venous Doppler
➤ Carotid artery Doppler

Referral instructions

To schedule a test, call Central Scheduling at (517) 975-2695 between 8 a.m. and 4:30 p.m. After scheduling an appointment, fax a completed referral form to (517) 975-9405.
Oncology Services

McLaren Greater Lansing offers comprehensive care to patients with cancer, including advanced medical, radiological and surgical oncology services. Our facilities are equipped with state-of-the-art technology, and we maintain a talented team of specialists who customize care to meet each patient's needs. Additionally, we collaborate with Michigan State University, University of Michigan and McLaren Cancer Institute, as well as McLaren Medical Oncology Associates. These partnerships help to bring patients the latest developments in cancer care, including valuable clinical trials. From diagnostic imaging capabilities to cutting-edge treatment technologies to a full spectrum of support services, McLaren Greater Lansing offers world-class cancer care.

McLaren Health Care operates the state's largest network of cancer centers and providers anchored by Karmanos Cancer Institute—one of just 41 National Cancer Institute (NCI) designated comprehensive cancer centers in the U.S. Karmanos' integration into the McLaren Health Care system brings these invaluable resources to patients in mid-Michigan and beyond.

mclaren.org/careconnect
Breslin Cancer Center

LOCATION: McLaren Greater Lansing
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-9500
Fax: (517) 975-9511

Breslin Cancer Center is a full-service, community-based outpatient cancer care facility with reach that extends across the United States through cutting-edge clinical trials. The exceptional staff at the center uses a multidisciplinary approach and tailors treatment plans to help fight each individual’s specific cancer.

Highlights of the center include:

- A dedicated outpatient chemotherapy infusion center, staffed with certified chemotherapy nurses
- On-site oncology pharmacists
- A clinical trials office that matches patients with appropriate regional and national clinical trials
- An on-site certified social worker, who works with patients to provide support before, during and after treatment

Referral instructions

A physician referral or self-referral is accepted.
Karmanos Cancer Institute

McLaren Health Care operates the state’s largest network of cancer centers and providers anchored by Karmanos Cancer Institute—one of just 41 National Cancer Institute (NCI) designated comprehensive cancer centers in the U.S.

Karmanos and its team of cancer care professionals provide treatments for over 6,000 newly diagnosed cancer patients yearly from its facility in Detroit. Its affiliation with Wayne State University School of Medicine provides a breadth of talent—physicians and academic researchers who have conducted more than 700 cancer-related trials and research projects.

Referral instructions

To refer a patient to Karmanos Cancer Institute, call 1-800-527-6266.
McLaren Proton Therapy Center

(Expected opening 2015)

LOCATION: G-4100 Beecher Road
Flint, MI 48532
Phone: 1-855-MY-PROTON (1-855-697-7686)

The McLaren Proton Therapy Center is a partnership between McLaren Health Care and ProTom International, Inc., a Texas-based healthcare technology company. The Center represents the next generation of proton therapy centers with several advances in design and technology. The new Center will take further steps toward better treatment delivery, image-guidance and will open doors for future clinical research for proton beam treatment. The McLaren Proton Therapy Center is the first – and only – Proton Therapy Center in Michigan and is projected to serve patients statewide as well as those from Canada and surrounding states.

The McLaren Proton Therapy Center includes a synchrotron, three gantry treatment rooms, an additional CT simulator and a PET CT. There is also clinical space to support daily treatment-related activities, including four exam rooms, patient and family support areas, physician and physicist offices and a CT/SIM suite.

The advanced treatment technology utilized at McLaren Proton Therapy Center is redefining the level of precision possible in radiation oncology. Three gantry treatment rooms will be seamlessly sharing proton beam delivery. Each of the three treatment rooms will have a 180-degree, 45-ton gantry, and a treatment table with robotic positioning with an accuracy of 0.5mm. Each gantry will have a pencil-beam scanning nozzle. For isocentric, volumetric, and orthogonal imaging, each of the three rooms will be equipped with a ceiling mounted, robotic C-arm with cone-beam CT and multiple panel x-ray imaging capabilities. Each of the treatment rooms are equipped with in-room and out-of-room CT image viewing consoles for volumetric image guidance. In addition to a second CT simulator, a PET CT unit will be placed steps away from the proton treatment rooms. This will allow for further research for post-proton treatment PET imaging and will also aid in PET CT treatment planning.

Referral instructions

For more information, call 1-855-MY-PROTON (1-855-697-7686)
McLaren Cancer Institute

LOCATION: McLaren Greater Lansing
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-9500
Fax: (517) 975-9405

McLaren Greater Lansing is affiliated with McLaren Cancer Institute, one of the largest cancer care networks in the state that brings together more than 400 oncology professionals who offer world-class cancer care, including the latest breakthroughs in oncology.

Being a part of McLaren Cancer Institute’s network and partnering with Michigan State University allow our patients to participate in, on average, nearly three times as many potentially life-saving clinical trials when compared to patients of other private-practice physicians.

Services offered through McLaren Cancer Institute include:

- Cancer support groups
- Certified oncology social worker
- Dedicated inpatient oncology unit
- Financial counseling
- Home health care
- Hospice care
- Nationally certified oncology nurses
- Nutrition services
- Pain management
- Pastoral counseling
- Psychosocial counseling
- Rehabilitation services

Treatment options offered include:

- Acute care services and hospital support
- Brachytherapy
- Chemotherapy embolization
- Chemotherapy and infusion services
- GliSite
- Intensity-modulated radiation therapy
- Intrathecal pain control
- LDR seed implants
- MammoSite
- Medical oncology
- Proton beam therapy (available in Flint only, starting in 2013)
- Radiation oncology
- Radiation therapy
- Radiofrequency ablation for liver metastasis
- Robotic surgery
- Sentinel node biopsy for breast cancer
- Sentinel node biopsy for colon cancer
- Sentinel node biopsy for melanoma
- Targeted therapy/radioimmunotherapy

Referral instructions

Physicians can refer patients to McLaren Cancer Institute. Or, patients can make appointments without referrals. However, patients are encouraged to contact their insurance carriers since some plans require a physician referral.

Appointments will be scheduled as quickly as possible, and urgent situations will be considered when appointments are made.
McLaren Lung Cancer Institute

**LOCATION:**  McLaren Greater Lansing
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-7849
Fax: (517) 975-3060

Using a multidisciplinary approach to care, McLaren Lung Cancer Institute provides medical, radiological and surgical oncology treatments for cancers of the thorax. An added benefit is our patient navigator program, which helps to reduce door-to-therapy time and to coordinate all facets of care.

**Referral instructions**

To refer a patient, please call (517) 975-8030
McLaren Medical Oncology Associates

LOCATION:  2901 Stabler St.  
Lansing, MI 48910  
Phone: (517) 272-1950  
Fax: (517) 272-1961

McLaren Medical Oncology Associates is a full-service, community-based outpatient cancer care facility bringing the highest standards in medical oncology to area residents. The board-certified oncologists/hematologists and highly trained staff treat all types of cancers and blood disorders, in addition to providing outpatient chemotherapy and infusion services on site.

Referral instructions

Please fax completed referral form to (517) 272-1961.
Radiation Oncology Alliance

LOCATION: McLaren Greater Lansing
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-7800
Fax: (517) 975-7810

Radiation Oncology Alliance—an innovative partnership among McLaren Greater Lansing, Michigan State University, and the University of Michigan—offers sophisticated radiation therapy technology and treatment planning to patients with cancer.

The alliance offers patients opportunities to participate in the latest clinical trials and features multidisciplinary teams that work together to design patient treatment plans integrating one or a combination of the following:

- Chemotherapy
- Radiation therapy
- Surgery

Referral instructions

Call (517) 975-7800 between 7 a.m. and 4:30 p.m. to schedule an appointment.
Orthopedic Services

The largest dedicated orthopedic hospital in the state, McLaren Orthopedic Hospital is recognized as a Blue Distinction Center for Knee and Hip Replacement by Blue Cross Blue Shield of Michigan and Blue Care Network. A broad range of inpatient and outpatient services is offered, including advanced techniques in arthroscopic surgery, joint replacement, sports medicine and more.

McLaren Greater Lansing is ranked in the top 10 percent of orthopedic programs nationally for good reason. Highly specialized in orthopedic care, our experienced surgeons, resident physicians, nurses, therapists and technicians compose one of the finest teams in the region, providing patients better outcomes and shorter hospital stays. When it comes to orthopedic care, there’s no one more dedicated than McLaren Greater Lansing.
Orthopedic Procedures

LOCATION:  McLaren Orthopedic Hospital
2727 S. Pennsylvania Ave.
Lansing, MI 48910
Phone: (517) 975-1107

McLaren Greater Lansing-affiliated surgeons perform many procedures, including:

- Arthroscopic surgery
- Foot/ankle surgery
- Hand/wrist surgery
- Hip arthroscopy
- Neck/back surgery
- Pain management procedures

- Shoulder/elbow surgery
- Specialty orthopedics
- Spine surgery
- Sports medicine surgery
- Total joint replacement

Referral instructions

To find a surgeon performing orthopedic procedures, please visit mclaren.org/lansingortho.
Surgical Services

McLaren Greater Lansing offers a wide range of general surgical services and many robotic-assisted surgery options performed by leading surgeons in the area.

With robotic surgery, physicians operate through very small incisions, bringing remarkable outcomes to patients, including shorter hospital stays, quicker recoveries, and far less pain and scarring. And because robotic procedures reduce the risk of infections and complications, they’re safer, too.
Minimally Invasive and Robotic Procedures

McLaren Greater Lansing-affiliated physicians perform a wide range of minimally invasive and robotic surgeries. Types of procedures offered include:

**Colorectal procedures**
- Abdominoperineal resection
- Left and transverse colectomy
- Low anterior resection
- Right colectomy
- Sigmoid colectomy

**General surgery procedures**
- Gastropexy
- Hiatal hernia
- Inguinal hernia repair
- Liver resection
- Multiport cholecystectomy
- Nissen fundoplication
- Paraesophageal hernia
- Right colectomy
- Single-site cholecystectomy
- Splenectomy

**Gynecologic procedures**
- Bilateral salpingo-oophorectomy
- Endometriosis resection
- Hysterectomy
- Myomectomy
- Ovarian cystectomy
- Single-site hysterectomy
- Single-site lysis of adhesions
- Single-site ovarian cystectomy
- Single-site salpingo-oophorectomy
- Sacrococcygeal
- Unilateral salpingo-oophorectomy

**Gynecologic oncology procedures**
- Adnexal mass removal
- Hysterectomy
- Radical hysterectomy
- Staging for early stage endometrial and uterine cancers

**Cardiothoracic procedures**
- Heller myotomy
- Lobe resection
- Lymph node biopsy
- Mediastinal mass removal
- Paraesophageal hernia repair
- Wedge resection

**Urologic procedures**
- Nephrectomy
- Pyeloplasty
- Partial nephrectomy
- Radical cystectomy
- Prostatectomy
- Ureteral reimplantation

**Referral instructions**

To find a surgeon performing minimally invasive or robotic procedures, please visit mclaren.org/lansingrobotics.
Endoscopic Procedures

Women’s Health Services

For all stages of life, women choose McLaren Greater Lansing for its high-quality care and compassionate health care providers. Our affiliated obstetric and gynecologic practices provide an array of services to accommodate women throughout their lives. Not only are the professionals at these practices highly skilled, but they are also compassionate and committed and really listen to patients’ concerns.

In addition, McLaren Greater Lansing features lovely, comfortable facilities for expectant mothers at the Birthing Center. Plus, outstanding breast care and imaging services can be found at our Breast Care Center.
Breast Care Centers

LOCATION: Breast Care Center
McLaren Greater Lansing
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-6425

Grand Ledge Radiology
1035 Charlevoix Drive
Grand Ledge, MI 48837
Phone: (517) 626-3100

Our Breast Care Center is the only facility in the region fully accredited by the National Accreditation Program for Breast Centers, the only center in the region offering MRI and MRI-guided biopsy, and the only comprehensive breast service clinic with an on-site breast surgeon and mammographer.

At the center, all mammograms are read by one of mid-Michigan's few radiologists fellowship trained in breast imaging. Our center also features a patient navigator program, which guides patients through the treatment process, ensuring seamless, coordinated care and any necessary support services.

To fully meet your patients' needs, the Breast Care Center offers a range of imaging services promoting excellent breast health.

Services offered include:

- Mammopad
- Screening and diagnostic mammography
- Diagnostic breast ultrasound and MRI
- Needle, stereotactic, ultrasound-guided and MRI-guided breast biopsy
- Fine-needle aspiration for cysts
- Digital mammography
- Computer-aided detection for mammograms

Referral instructions

Call (517) 975-2695 to schedule an appointment. Patients may schedule their own mammograms; however, all other exams and procedures require a physician’s referral.

Fax: (517) 485-1490

McLaren Greater Lansing Gastroenterology Center provides expert diagnosis and treatment for patients suffering from disorders of the stomach, liver, pancreas, colon, small intestine, gallblader and esophagus.

Referral instructions

Please call (517) 485-2317 for more information.
Neuroscience Services

In addition to providing neurodiagnostic services that diagnose nerve- and muscle-related conditions, McLaren Greater Lansing maintains an exceptional team of neurologists and neurosurgeons who are highly experienced in treating patients with various disorders of the brain and nervous system.
Neurodiagnostic Services

**LOCATION:** McLaren Orthopedic Hospital [inpatient and outpatient services]
2727 S. Pennsylvania Ave.
Lansing, MI 48910
Phone: (517) 975-2935
Fax: (517) 975-2934

At McLaren Greater Lansing, state-of-the-art technology is used to evaluate a range of disorders affecting nerves and muscles. Our program provides a number of helpful services, including:

- Electromyography/nerve conduction testing (EMG/NCT), which examines selected muscles of the arms and legs and muscles along the spinal regions of the back and neck
- Electroencephalogram (EEG), performed to evaluate brain wave activity and electrical function (performed at Grand Ledge health center)
- Evoked potentials (EP), used to monitor stimuli in the body
- Intraoperative monitoring (IOM), which evaluates peripheral and central nervous system functions during surgery

**Referral instructions**

To refer a patient or schedule an appointment, call (517) 975-2935.
Stroke Program

LOCATION: McLaren Greater Lansing
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-6000
Fax: (517) 975-6820

When it comes to stroke diagnosis, recovery and rehabilitation, McLaren Greater Lansing offers a comprehensive program and a multidisciplinary team that uses protocols established by the American Heart Association, the American Stroke Association and the National Stroke Association. In addition, we’ve earned Primary Stroke Certification from the Healthcare Facilities Accreditation Program, an independent, nationally recognized accreditation authority, for achieving excellence in stroke care.

Patients admitted to McLaren Greater Lansing’s Stroke Center spend only an average 4.2 days in the hospital. During this time, the Stroke Program’s staff carefully assesses individuals to determine if they need continued inpatient rehabilitation, home-based therapies or other rehabilitative services.

Accurate diagnoses require up-to-date testing capabilities, and our Stroke Program offers the most advanced in mid-Michigan, including:

- Carotid Doppler ultrasound
- Cerebral arteriogram
- Computerized axial tomography
- Computerized tomography angiogram
- Echocardiogram
- Electrocardiogram
- Magnetic resonance angiogram
- Magnetic resonance imaging
Pulmonary Services

McLaren Greater Lansing has a long and proud history of providing exceptional pulmonary services to area residents. Originally founded as a chest hospital, we've been diagnosing and treating respiratory diseases for more than 50 years, beginning with influenza and tuberculosis.

Today, our pulmonary medicine team consists of many specialists, including board-certified pulmonologists and cardiothoracic surgeons, respiratory therapists, sleep technologists and other clinical personnel. These professionals use a multidisciplinary approach to diagnose and treat broad-ranging respiratory disorders. For patients experiencing very serious pulmonary illnesses, we offer a superb critical care team offering the highest level of acute care available.

When you want your patients to have the best in pulmonary care, there's no need to look further than McLaren Greater Lansing.
Asthma Education

LOCATION:  Meerman Education Center

407 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-6653
Fax: (517) 975-6660

**Grand Ledge Radiology**
1035 Charlevoix Drive
Grand Ledge, MI 48837
Phone: (517) 626-3100
Fax: (517) 626-3105

McLaren Greater Lansing offers radiology services from four convenient locations and provides a number of exams that are helpful to referring doctors and their patients, including:

- X-ray
- CT scan
- Bone-density screening
- PET/CT exam (see “PET/CT Exams” page for more details)
- Ultrasound
- Nuclear medicine
- MRI
- Digital mammography from a breast center fully accredited by the National Accreditation Program for Breast Centers
- Radiologist-assisted biopsy

**Referral instructions**

To schedule an appointment for a patient, call (517) 975-2695. You will hear a series of prompts, allowing you to schedule tests as needed. All radiology services require a written order from a physician that lists the patient’s name, date of birth, symptoms/diagnosis, requesting physician’s name and requested test(s).
Interventional Radiology

LOCATION: McLaren Greater Lansing

401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-7000

McLaren Greater Lansing offers state-of-the-art interventional radiology services through its partnership with Advanced Radiology Services (ARS), a group of more than 120 radiologists serving central and western Michigan. All ARS interventional radiologists are board certified, have extensive radiology training and have completed interventional radiology fellowships.

Vascular services include:
- Angioplasty and vascular stenting
- Aortic fenestration
- Biliary interventions
- Catheter angiography
- Catheter embolization
- Catheter-directed thrombolysis
- Chemoembolization
- Inferior vena cava filter placement
- Dialysis and access intervention
- Aneurysm embolization
- Transjugular intrahepatic portosystemic shunt
- Thrombolytic therapy and uterine fibroid embolization

Nonvascular services include:
- Biopsies
- Drainage of abscesses/cysts
- Feeding tube placement
- Vertebroplasty
- Radiofrequency ablation of lung, liver and other tumors
- Percutaneous treatment
- Paracentesis
- Thoracentesis port placement
- Image-guided needle biopsy of lung nodules

Referral instructions

To schedule an appointment for a patient, please call (517) 975-7727. For more information, visit mclaren.org/LansingIR.

PET/CT Exams

LOCATION: McLaren Greater Lansing
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-2695
Fax: (517) 975-4282

Positron emission tomography/computed tomography (PET/CT) exams are powerful diagnostic tools, combining the functional information of PET exams with the anatomical information of CT exams. In addition to safely diagnosing a range of conditions, PET/CT exams help predict the outcomes of various therapeutic alternatives, pinpoint the best treatment approaches and monitor patients’ progress.

PET/CT exams last from 20 to 40 minutes; however, patients should plan on the entire process lasting from two to three hours.

Referral instructions

To schedule an appointment for a patient, call (517) 975-2695. You will hear a series of prompts, allowing you to schedule tests as needed.

PET/CT exams require a written order from a physician that lists the patient’s name, date of birth, symptoms/diagnosis, requesting physician’s name and requested test(s). A McLaren Greater Lansing account representative will assist with obtaining insurance approval.
Rehabilitation Services

McLaren Greater Lansing has a highly skilled and experienced team of rehabilitation specialists that includes occupational therapists, physical therapists and physical therapy assistants. These individuals apply diverse rehabilitation tools—including exercise, range-of-motion activities, stretching, thermal modalities, manual techniques and education—to help patients return to the highest levels of activity and functionality possible.

mclaren.org/careconnect
Rehabilitation Services

CARDIAC REHABILITATION

LOCATION: R.E. Olds Anderson Cardiac Rehabilitation Center
Meerman Education Center
407 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-7050
Fax: (517) 975-7062

McLaren Greater Lansing offers patients with coronary artery disease a three-phase program that encourages more active, heart-healthy lifestyles.

PHASE I

Phase I is designed for patients in the hospital. At some point of the patient’s stay, a member of the cardiac rehabilitation team introduces the program, education materials and home-exercise guidelines.

PHASE II

Phase II, conducted at the R.E. Olds Anderson Cardiac Rehabilitation Center, is a comprehensive teaching and exercise program designed for patients with stable angina or those who have had angioplasty or stent placement, a recent heart attack or heart transplant, or coronary artery bypass or valve surgery. Phase II goals include:

- Improving physical fitness through clinically prescribed and supervised exercise
- Educating participants and their families about heart disease and risk factors
- Teaching participants how to further reduce the risk of complications
- Presenting opportunities for individuals to share their experiences with others
- Educating participants about a heart-healthy diet

Once participants complete phase II, they may advance to the phase III maintenance exercise program.

PHASE III

Phase III is the program’s maintenance stage and is specifically designed for individuals who have heart disease and a physician’s referral or individuals who have completed phase II. Participants register for phase III on a month-to-month basis and pay a nominal fee. They may continue the program for as long as desired. Phase III can also be used for patients with congestive heart failure, peripheral vascular disease or other cardiac diagnoses.

Referral instructions

For more information, call (517) 975-7050. A completed referral form is required in some cases. Fax form to (517) 975-7062.
PHYSICAL THERAPY

LOCATION: 3394 E. Jolly Road, Suite B [lower level]
Lansing, MI 48910
Phone: (517) 975-3520
Fax: (517) 975-3525

Jolly Road Physical Therapy provides treatments for a wide variety of conditions. All clients will be evaluated by a physical therapist and will participate in goal setting and the design of a treatment program to fit their needs. Highly trained staff members provide manual therapy and customized treatments.

Some conditions we commonly treat are:

- Orthopedic conditions (acute injuries, postsurgical rehabilitation, arthritis)
- Conditions related to women’s health (pelvic pain, urinary incontinence, postsurgical breast cancer rehabilitation, breast cancer-related lymphedema, osteoporosis, and prenatal and postnatal care)
- Neurological conditions (multiple sclerosis, stroke, Parkinson’s disease)
- Workplace-related injuries
- Men’s health concerns (e.g., incontinence from prostatectomy)
- Oncology-related conditions

Additionally, McLaren’s STAR (Survivorship Training and Rehabilitation) Oncology Rehabilitation Program® provides patients with coordinated cancer rehabilitation supported by a team of certified STAR Clinicians® and Providers specially trained to treat survivors of all forms of cancer. Patients receive comprehensive cancer rehabilitation treatment to help them concentrate on enjoying their lives—not battling their disease.

Referral instructions

Call (517) 975-3520 to schedule an appointment. A physician’s referral is required for all patients. Please include diagnosis, treatment order, frequency and duration.

A copy of the order can be faxed directly to (517) 975-3525 with the patient’s contact information included. Our staff will contact the patient directly for scheduling.

For referral forms, visit mclaren.org/careconnect
OCCUPATIONAL/HAND THERAPY

LOCATION: 3394 E. Jolly Road, Suite B (lower level)
            Lansing, MI 48910
            Phone: (517) 975-3520
            Fax: (517) 975-3525

Highly specialized, our certified hand therapists assist recovery from hand and arm injuries, whether caused from trauma or repetitive use. Some commonly treated conditions include:

- Tendon lacerations and amputations
- Arthritis and fractures
- Carpal tunnel syndrome, de Quervain syndrome and other injuries associated with overuse
- Postsurgical treatment for tendon repair, trigger finger release or joint replacements
- Neuro treatment - CVA
- Upper extremity lymphedema treatment

Our hand therapist works with patients to create individualized treatment plans. Our occupational therapist focuses on accommodating patients’ needs to help restore function to hands and arms. We provide education to help prevent and protect the joints from reinjury. Our therapists also offer experience in customized splinting.

Additionally, McLaren’s STAR (Survivorship Training and Rehabilitation) Oncology Rehabilitation Program® provides patients with coordinated cancer rehabilitation supported by a team of certified STAR Clinicians® and Providers specially trained to treat survivors of all forms of cancer. Patients receive comprehensive cancer rehabilitation treatment to help them concentrate on enjoying their lives—not battling their disease.

Referral instructions

For more information, call (517) 975-3520. A physician’s referral is required for all patients. Please include diagnosis, treatment order, frequency and duration. A copy of the order can be faxed directly to (517) 975-3525 with the patient’s contact information included; our staff will contact the patient for scheduling.
PULMONARY REHABILITATION

LOCATION: Meerman Education Center
407 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-6400
Fax: (517) 975-6660

Designed to be accessible and affordable to mid-Michigan residents, McLaren Greater Lansing’s Pulmonary Rehabilitation Program helps patients suffering from chronic lung disease or respiratory impairments return to the best possible health.

The program has three phases, is multidisciplinary and is tailored to meet each individual's needs through education, physical therapy, reconditioning exercises, group support and other innovative rehabilitative methods.

Phase I includes an initial interview and assessment, exercise testing and education.

Phase II features a comprehensive educational and exercise program for participants that seeks to:

- Improve physical fitness
- Teach patients more about lung disease
- Help patients manage their diseases
- Acquaint patients with signs and symptoms of their diseases
- Offer a platform for patients to share their experiences
- Set good nutritional goals

Phase III is the program’s maintenance stage and is specifically designed for individuals who have successfully completed phase II. Participants complete phase III on a self-pay basis.

Referral instructions

Participation in all phases of the Pulmonary Rehabilitation Program requires a physician’s referral. For more information about the program, call (517) 975-6400. Completed referral forms can be faxed to (517) 975-6660.
Speech-Language Pathology

LOCATION: McLaren Greater Lansing
401 W. Greenlawn Ave.
Lansing, MI 48910
Phone: (517) 975-6402
Fax: (517) 975-6660

Speech-language pathology services are available to evaluate patients for swallowing disorders (dysphagia).

The Speech and Swallow Clinic accepts adult and geriatric patients for STAR oncology rehabilitation program and stroke-related swallowing and speech therapy.

Referral instructions

To refer patients for a videofluoroscopic study, call (517) 975-6402 or fax referral form to (517) 975-6660. To refer patients for the Speech and Swallow Clinic, call (517) 975-6403.

Lansing, MI 48910
Phone: (517) 975-3520
Fax: (517) 975-3525

McLaren Rehabilitation Services STAR Oncology Rehabilitation Program is a multidisciplinary and patient-centered program that offers survivors physical, occupational and speech therapy to recover more quickly from side-effects like:

- Fatigue
- Musculoskeletal pain
- Joint stiffness
- Limb swelling (upper extremity lymphedema)
- Weakness
- Memory problems
- Balance
- Issues talking or swallowing

McLaren Rehabilitation Services STAR Program® provides patients with coordinated cancer rehabilitation supported by a team of certified STAR Clinicians® and Providers specially trained to treat survivors of all forms of cancer. Patients receive comprehensive cancer rehabilitation treatment to help them concentrate on enjoying their lives—not battling their disease.

Referral instructions

For more information about the program, call (517) 975-3520.
Additional Services

At McLaren Greater Lansing, we’re committed to keeping our community as healthy as possible. It’s our most important goal, and we accomplish it, in part, by offering a diverse range of secondary services to patients who need specialized outpatient care. From convenient outpatient laboratory draw stations to a wound care center specializing exclusively in healing wounds, we offer area residents everything they need to get and stay healthy.
Diabetes Self-Management Education

LOCATION: McLaren Orthopedic Hospital
2727 S. Pennsylvania Ave.
Lansing, MI 48910
Phone: (517) 975-2270
Fax: (517) 975-2200

The Diabetes Self-Management Education program offers classes that provide a range of important information to people living with diabetes. Among other topics, participants will learn how diabetes affects the body, how to manage diabetes through therapies and goal setting, and how to reduce the risk of complications caused by the disease.

All classes are taught by registered nurses and dietitians certified in diabetes education. Program costs are covered by Medicare, Medicaid and most private insurers. Group classes and individual counseling are available. Preregistration is required for all services.

Group classes (call (517) 975-2270 to preregister):
▷ Morning- and evening-series classes are held monthly
▷ A one-day class is offered twice a month

Individual counseling: Call (517) 975-2270 for details.

Class topics include:
▷ Explanation of diabetes
▷ Causes and types of diabetes
▷ Short-term problems (e.g., high/low glucose)
▷ Long-term problems
▷ Home glucose monitoring
▷ Feelings about diabetes
▷ Living with diabetes
▷ Meal planning (nutritional goals and guidelines)
▷ Diabetes food exchange program
▷ Individual meal plans
▷ “Free” foods (foods not counting toward daily caloric intake)
▷ Foods to avoid
▷ Alcohol use
▷ Managing special occasions
▷ Eating out
▷ Label reading
▷ Recipe substitution
▷ Sick-day rules
▷ Diabetic medications (oral agents and insulin)
▷ How to give insulin and site locations
▷ Long-term complications
▷ Personal health habits
▷ Foot care
▷ Balancing diet, exercise and medication
▷ Adhering to the program for the long term
▷ Support groups
Geropsychiatric Evaluation and Management Services

LOCATION: McLaren Orthopedic Hospital
2727 S. Pennsylvania Ave.
Lansing, MI 48910
Phone: (517) 975-3212
Fax: (517) 975-3218

Geropsychiatric Evaluation and Management Services (GEMS) helps older adults live complete, satisfying lives by providing high-quality medical, clinical and social support services that treat a range of emotional and mental problems resulting from the aging process, including:

➢ Depression
➢ Prolonged grief over the loss of a loved one or one’s independence
➢ Unusual changes in behavior or mood
➢ Confusion or dementia
➢ Memory problems
➢ Decreased ability to perform normal daily activities
➢ Loss of interest in people or usual activities
➢ Excessive complaints about physical problems despite good health
➢ Suspicious behavior or thoughts
➢ Uncharacteristic anger, irritability or agitation
➢ Physically assaultive behavior
➢ Trouble with self-care, daily routines or decision making
➢ Feelings of hopelessness or suicidal thoughts

The GEMS team includes a geriatric psychiatrist; a consulting neuropsychologist; activity, physical and occupational therapists; clinical social workers; and psychiatric nurses. In addition to ensuring older individuals get the care they need, GEMS also helps family members cope with the problems their loved ones face.

Referral instructions

To refer a patient, call the GEMS unit at (517) 975-3212. After-hours admissions can be coordinated by reaching a member of the GEMS staff at (517) 975-3212.
The Infusion Center

LOCATION: McLaren Orthopedic Hospital
2727 S. Pennsylvania Ave.
Lansing, MI 48910
Phone: (517) 975-2220
Fax: (517) 975-2222

The Infusion Center offers a range of helpful services to patients. All services must be initiated and discontinued by a physician’s order and provided under the direction and supervision of the ordering physician.

Services and treatments offered include:

- Any venous access device (VAD) care, including infusaport, PICC, Hickman and Groshong catheter care
- Hydration therapy
- Antibiotic therapy
- Steroid therapy
- Subcutaneous injections
- Iron therapy
- Administration of blood products
- Central venous line access and management
- Remicade therapy (preauthorization may be necessary)
- Reclast infusion
- Immunoglobulin (IVIG)(preauthorization may be necessary)
- Outpatient blood draw from VAD ports
- Prolastin-C

Referral instructions

To refer a patient, call (517) 975-2220 and report patient’s name, birth date, diagnosis, treatment and VAD information (if applicable). The Infusion Center will then call your office with an appointment time and directions for your patient. If this is the patient’s first referral to the center, after calling, please fax us his or her demographic information, including insurance information. Orders must be signed by a physician or physician assistant.

Lansing, MI 48910
Phone: (517) 975-9900 or (800) 722-9449
Customer service: (866) 323-5974
Fax: (866) 296-1545
Website: mclaren.org/homecaregroup

We customize plans to meet the specific needs of your patients. Our highly trained team consists of nurses; physical, occupational and speech therapists; home health aides; medical social workers; and dietitians. McLaren Home Care also features state-of-the-art telehealth monitoring equipment for qualified cardiopulmonary and chronic obstructive pulmonary disorder (COPD) patients.

Consider McLaren Home Care when:
- Recovering from an illness, accident or surgery
- Monitoring and treating wounds
- Administering or monitoring medications
- Falling frequently in the home
- Acquiring new caregivers who may need education and training for skills
- Unable to stay home without assistance

Specialty programs include:
- Senior care, focused on the elderly who have long-term health needs
- “Maximum Mobility,” an innovative program designed for patients with balance problems who are at risk of injury from falling
- Infusion nursing care provided by nurses specially trained to administer infusion medications and treatment therapies
- Cardiopulmonary care, designed for those recovering from open-heart surgery or living with heart failure or COPD
- Orthopedic care, created for patients with orthopedic injuries and patients who have recently had joint-replacement procedures
- Wound care management, providing exceptional wound care by combining home-based nursing with wound care expertise

McLaren Palliative Care at Home

LOCATION: 2316 S. Cedar St., Suite 600
Lansing, MI 48910
Phone: (517) 975-9900 or (800) 722-9449
Customer Service: (866) 323-5974
Fax: (866) 296-1545
Website: mclaren.org/homecaregroup

McLaren Palliative Care at Home is a highly specialized home care program that aims to relieve pain and improve the quality of life for patients with advanced illnesses. Such patients may be in a constant state of pain or feel overwhelming anxiety or emotional turmoil about a serious illness.

Palliative care treats the whole person, providing spiritual support while reducing pain, suffering and mental anguish to improve quality of life.

Our palliative medicine team works closely with the patient’s primary care physician to facilitate the appropriate care for the patient’s condition. The goal is to support patients and their families as they deal with an advanced illness in conjunction with any curative or life-prolonging treatments.

Patient prognosis:
- Poor or guarded
- One to two years of life expectancy
- End-stage, but neither ready nor appropriate for McLaren Hospice care
- Two to three hospitalizations within the past six months
- Two to three home care referrals within the past six months

Diagnoses with repeated hospitalizations:
- Early-stage cancer
- Chronic obstructive pulmonary disorder
- Congestive heart failure
- Advanced multiple sclerosis renal disease (dialysis needed)
- Uncontrolled diabetes
- AIDS
- Cardiac, pulmonary or cerebrovascular disease
- Dementia
- Amyotrophic lateral sclerosis

A physician referral is required to begin services. Patients must be homebound for Medicare reimbursement. Patients may be receiving (not all inclusive) total parenteral nutrition (TPN), dialysis, transfusions, chemotherapy or
McLaren Hospice

LOCATION: 2316 S. Cedar St., Suite 600
Lansing, MI 48910
Phone: (517) 975-9900 or (800) 722-9449
Customer service: (866) 323-5974
Fax: (866) 296-1545
Website: mclaren.org/homecaregroup

Exceptional hospice care is provided by a highly skilled team of professionals, including physicians, social workers, counselors, spiritual care coordinators, hospice-certified nursing assistants, dietitians, pharmacists, therapists and volunteers.

Working together, your hospice team can design unique plans for patients with life-limiting illnesses and their families. Hospice provides medications, supplies and medical equipment, as well as any services needed for palliative care.

Friends, families or patients themselves may request hospice services. Generally, hospice patients are not receiving aggressive medical treatment, but each patient is evaluated on an individual basis.

As part of Medicare’s hospice guidelines, patients must elect to receive comfort care, and a physician must document a life-limiting prognosis of six months or less. Patients are not required to be homebound for hospice Medicare reimbursement.
The McRee Guest House

LOCATION: 2721 S. Washington Ave.
Lansing, MI 48910
Phone: (517) 372-6153
Fax: (517) 372-6554

Lansing, MI 48910  
Phone: (517) 975-6625  
Fax: (517) 975-6630

McLaren Greater Lansing’s Pain Management Center has a talented team of anesthesiologists, neurologists, physical medicine and rehabilitation physicians, and psychologists who provide services to manage the full spectrum of pain. Before treatment, a patient’s physical, emotional and psychological needs are evaluated. Then, a personalized care plan is developed and implemented.

Services offered include:
- Acupuncture
- Behavioral pain management
- Intrathecal morphine pumps
- Major nerve blocks
- Medication therapy
- Multidisciplinary pain management
- Spinal local injection therapy
- Spinal column stimulator devices
- Transcutaneous electrical nerve stimulation units

Referral instructions

All patients must be referred by a physician. Most patients can be seen within 48 hours of referral.
Sleep and Alertness Center

LOCATION: McLaren Orthopedic Hospital
2727 S. Pennsylvania Ave.
Lansing, MI 48910
Phone: (517) 975-3387
Fax: (517) 975-3390

Fully accredited by the American Academy of Sleep Medicine for more than 20 years, McLaren Greater Lansing’s Sleep and Alertness Center offers services to identify many common sleep disorders, including obstructive sleep apnea, narcolepsy, periodic limb movements and restless legs. The Sleep and Alertness Center is equipped with state-of-the-art technology, and our staff consists of board-certified sleep physicians and registered polysomnographic technologists who pride themselves on creating a friendly, comfortable atmosphere for patients. Pediatric patients 2 years of age and older are welcome.

Typically, patients arrive at the center in the evening for sleep studies. However, tests can be performed throughout the day for those accustomed to sleeping during the daytime. The center also provides other services, including home sleep studies, overnight home oximetry testing and consultations with board-certified sleep physicians.

Referral instructions

Patient referrals can be submitted by either fax or online submission. You may fax your patient referral to (517) 975-3390. Please call the Sleep and Alertness Center to obtain the latest form if you don’t have one. To submit a patient referral online, visit https://www.mclaren.org/lansing/sleepcenterreferralformonlineGL.aspx.
Wound Care & Hyperbaric Center

LOCATION: 2727 S. Pennsylvania Ave.
Lansing, MI 48910
Phone: (517) 975-1500
Fax: (517) 975-1514

McLaren Greater Lansing’s Wound Care & Hyperbaric Center offers an aggressive wound-management program to help those suffering from nonhealing wounds. Our team of highly skilled doctors and nurses is dedicated to treating wounds, including those that have resisted months of prior treatment. Among other advanced treatments, the center has the area’s first hyperbaric chamber.

We call upon medical professionals within our center—including podiatrists, vascular surgeons, general surgeons, and wound care and hyperbaric medicine specialists—to advance the healing process. Typically, patients are seen weekly by one of the center’s physicians until treatment is completed.

At the Wound Care & Hyperbaric Center, we specialize in treating chronic, nonhealing wounds, including:

› Pressure ulcers
› Venous ulcers
› Arterial ulcers
› Weeping lower-extremity ulcers
› Nonhealing surgical wounds
› Diabetic foot wounds
› Burns
› Bites
› Open sores resistant to healing
› Other chronic nonhealing wounds

Referral instructions

After a referral form has been faxed to (517) 975-1514, we will schedule an appointment with the patient.
Physician Services

McLaren Greater Lansing works actively to foster a sense of community among our physicians and staff members and has implemented a number of helpful services and systems designed to support physicians and their practices. From medical records services to support from our physician liaisons to a handy desktop application, a range of tools and support is available to physicians to make communication and collaboration easier than ever.
Physician Resources

Care Connect Online

401 W. Greenlawn Ave., rooms 1680 and 1646
Lansing, MI 48910
Phone: (517) 975-6571 (physician assistance), (517) 975-6574 (dictation inquiries)
Fax: (517) 975-6560
Hours: seven days a week, 8 a.m.-6 p.m

Medical Records oversees a number of services, including:

Dictation

The dictation system can be accessed from any telephone by calling (877) 498-4427. Dictation phones are also located at all nursing units; the Medical Records Department (room 1680); the physician lounge, located on the first floor of the Belen wing; the surgery lounge; the Emergency Department; and the Cardiac Catheterization Lab.

For questions regarding dictation, call Medical Records at (517) 975-6574.

WebStation for Physicians

WebStation for Physicians (WSP) is McLaren Greater Lansing’s Web-based electronic medical records system. To access WSP:
1. Open the Internet browser
2. Enter wsp.mclaren.org and choose “McLaren Greater Lansing”
3. Enter your log-in and password
or
1. Visit mclaren.org
2. Click on the “For Physicians” tab
3. In the links section at left, choose “WebStation for Physicians (WSP)”
4. Enter your log-in and password

If you need assistance completing your chart deficiencies in WSP, please call Medical Records at (517) 975-6571. If you need assistance with the WSP application, including password resetting, please call the service desk at (800) 443-2026.
Medical Staff Services Department (Credentialing)

LOCATION: McLaren Greater Lansing
401 W. Greenlawn Ave.
Lansing, MI 48910
Supervisor: [517] 975-7576
Medical staff coordinators: [517] 975-7577, [517] 975-7575
Fax: [517] 975-7580
Hours: Monday-Friday, 8 a.m.-4:30 p.m.

McLaren Greater Lansing’s Medical Staff Services Department is charged with verifying the credentials of physicians and allied health professionals in compliance with regulatory and accreditation agencies, as well as CMS. Currently, the Medical Staff Services Department staff manages approximately 900 credentialed practitioners’ files and administers initial credentialing and recredentialing processes.

McLaren Greater Lansing’s Medical Staff Services Department provides the following services:

- Investigates and verifies the credentials of physicians and allied health professionals (AHPs). When a physician or AHP wishes to apply for staff, he or she must contact the Medical Staff Services Department to request an application packet.
- Maintains important credentialing documents on the mclaren.org website. To access this site, go to mclaren.org, click on “For Physicians,” and then select “For Physicians at McLaren Greater Lansing.” After, click on “Medical Staff Services.” On this page, you will find information related to the following:
  - Professional staff bylaws
  - General rules and policies
  - AHP policy
  - Department rules
  - Privilege request forms
  - Professional staff department and committee meeting schedules
  - Professional staff roster (alphabetically and by specialty/practice)
  - Links to: Michigan online license application/renewal service
    a. AMA
    b. AOA
    c. DEA
  - Initial application
- Monitors ongoing competence of practitioners
- Maintains demographic data on physicians and AHPs through a credentialing database and in Paragon
- Maintains current professional and pharmacy licenses, DEA certificates, liability insurance face sheets, and board and other professional certifications
- Provides maintenance and management of electronic call schedules
- Supports and facilitates most professional staff department meetings
