

**IMPORTANT** - Please Read Both Pages of These Instructions at Least 1 Week Before Your Procedure.

**A Pre-Endoscopy nurse will call you within 24-72 hours of your procedure for an important health history interview.**

**Key Instructions:**

Follow all of the instructions in this handout **EXACTLY** as they are written. If you do not follow the directions, your procedure may be canceled.

- **DO NOT** eat anything the day of your procedure. You may have clear liquids, but these will need to be stopped **6 hours before your exam.**
- A responsible family member or friend **MUST** drive you home from the procedure. You are **NOT ALLOWED** to drive or leave the Endoscopy Center **ALONE**. If you do not have a responsible driver (family member or friend) with you to take you home, your exam will need to be rescheduled.
- Please do not bring any jewelry or other valuable items to the endoscopy room for your procedure.

Your doctor has scheduled you for:

- Gastroscopy (EGD)**- A procedure where the doctor looks at your esophagus, stomach, and the first part of your small bowel.
- Esophageal Dilation**- After performing a gastroscopy, the doctor will stretch your esophagus.
- Gastroscopy (EGD) with a Feeding Tube (PEG) Placement**- The doctor performs a gastroscopy and makes a small incision into the abdomen. A feeding tube is then placed through this incision.
- Endoscopy Retrograde Cholangiopancreatography (ERCP)**- This is a procedure where the doctor looks at the ducts leading from your liver and pancreas.
- Bravo pH Monitoring Study**- This is a test that evaluates whether acid from the stomach is refluxing into the esophagus.
