

## Employee Leisure Rentals

All employees of McLaren Health Care Corporation have the ability to use the McLaren “Personal Use” discount code and receive special pricing.

The Corporate Code is **XZ20947** and can be used at both Enterprise Rent-A-Car and National Car Rental. This is available to all McLaren Health Care Corporation’s direct employees or spouses.

### **Frequently Asked Questions:**

#### **How do I decide whether to use Enterprise or National?**

It is a personal preference. Enterprise is a great option for all non-airport rentals (local). National is only at airports, so unless you are flying into an airport, you generally will save money by renting at a non-airport Enterprise location.

#### **How do I make a reservation with Enterprise?**

There are two ways to make a reservation with Enterprise:

1. Go online to [www.enterprise.com](http://www.enterprise.com) . Put in the location and date of rental. Under “Optional” input your Corporate Id number that you will be using. This will take you to the next screen where you will be asked for a PIN (MCL). It is always the first three digits of the Company Name. Complete the reservation.
2. Call the branch directly. This is recommended if you need a rental vehicle with less than four hour notice, to be picked up and brought to the rental office, or have any special needs. Make sure you give them your Corporate Id number so you get the proper rates. If you do not know the branch phone, call 1-800-rent-a-car. Choose the option to talk with the location nearest to where you are calling from.

#### **How do I make a reservation with National Car Rental?**

Go to [www.nationalcar.com](http://www.nationalcar.com). Put in the location and dates of rental. Next to “More Options” press the “click here”. Put your Corporate ID number here. Press Continue.

#### **Will rates always be lower than the regular rate if I just went online?**

No. Rates fluctuate, you should check the rates without the discount to see which is the best

#### **What if I have an accident while driving a rental vehicle?**

For Enterprise you should call the branch phone number on the Enterprise rental agreement. For National call 1-800-367-6767. If the accident involves another car or property, you should call the police and obtain a police report. If the accident happens after business hours, you should contact the roadside assistance number for Enterprise call 1-800-307-6666.

#### **What is the re-fuel policy with Enterprise and National?**

To avoid any additional fuel charges, you should return the vehicle with the same level of fuel received at the time of check-out. If the vehicle is returned and the fuel is not replaced, a KP-negotiated per gallon rate will apply. However, you should replace the fuel whenever possible, as local gas stations will offer the lowest per gallon price.

#### **Is CDW (Collision Damage Waiver) included when I rent?**

CDW is not included in the rate for rentals. An option to purchase coverage’s will be offered at the time of rental.
