

**NOMINATION FOR THE  
Bay Star Award**

This award is given to someone who's a legend to McLaren Bay Region. The legend is the story of them being involved in someone else's life - to help in terrible times, in time of need, in time of jeopardy.

A "Bay Star" candidate is someone who far exceeds expectations with a single event. This person may otherwise be unremarkable in performance of their job duties, but through their actions they respond in such a remarkable manner as to distinguish themselves from all other employees.

Examples of "Bay Star" recognition are an employee, who works the dock, who wouldn't let the delivery person leave without being checked for the chest pain they were experiencing - maybe saved their life. Like an ED nurse who connected with a lady in need of a transplant - helped arrange the surgery and spent the day with the stranger, who became a fast friend.

In each case the employee may have purposely ignored policy or avoided going through "existing channels of communication," because it was in the best interest of the patient or customer and necessary given time constraints.
