Cancer Quality Improvement Program

McLaren - Central Michigan

6441850

Mt Pleasant, MI

**Annual Report 2015**

Updated February 2016

## Cancer Program Volume

- Total Case Volume Over Time, 2009–2013 \*
- Insurance Status (including national comparison)

## Cancer Program In/Out Migration

- Total In/Out Migration, 2009-2013 - My Facility
- In/Out Migration by Insurance Status, 2013 - My Facility

\* Some facilities may see “Cranial Nerves Other” as one of their top ten cancer sites for case volume in the 2015 report that did not appear in prior CQIP reports. Prior to 2015 submissions, some “Other Cranial” histologies and primary sites such as meninges were incorrectly suppressed, but were allowed in 2015. The histologies and primary sites that were added may be found in the CQIP documentation.

## CQIP monitors several areas of our cancer program including:

- Quality Measure Reports
- Surgical volume and unadjusted 30, 90, day mortality after complex operations
- Breast, Colon, Non-Small Cell Lung Cancer (NSCLC), Prostate, and Melanoma
- Provides Administrative Reports to Program Leadership
