## Patient Status Orders and Discharge Orders

**Every patient must have a signed PSO by the Attending.**

**Every patient must have a Discharge order. You cannot by pass the order to discharge the patient.**

**Do not Discontinue any PSO when you are discharging a patient.**

These orders drive room and bed charging. If you have questions about PSO's please reach out to the Case Management office. We should never discontinue a PSO order, unless the Attending is the one discontinuing the order due to writing in error.
