## POWERPLANS AND IPOC INITIATION

### ED to INPATENT

Discontinue ED Transition Orders, **THEN** Initiate Admission Orders

If any alerts come up after selecting initiate, you **MUST** address the issue(s) with the Admitting Provider **BEFORE** continuing to sign

### INPATIENT to PRE-OP

Nurse may initiate the planned Pre-Op orders if the patient is prepped on the floor

### EXTENDED RECOVERY

Nurse may initiate the Post-Op phase of the plan in the event of an extended recovery and the phase is not initiated

### IPOCS

When initiating IPOC's make sure to select the communication type of Initiate Plan
