6/14/2018
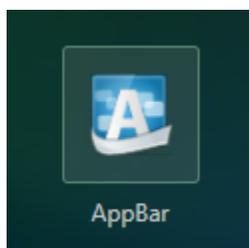

CUSTOMIZING THE APPBAR

1. Log into your **Citrix** homepage.

2. Click the **AppBar** icon.

3. Log in to **AppBar** by entering your **Username** and **Password**. Click **OK**.
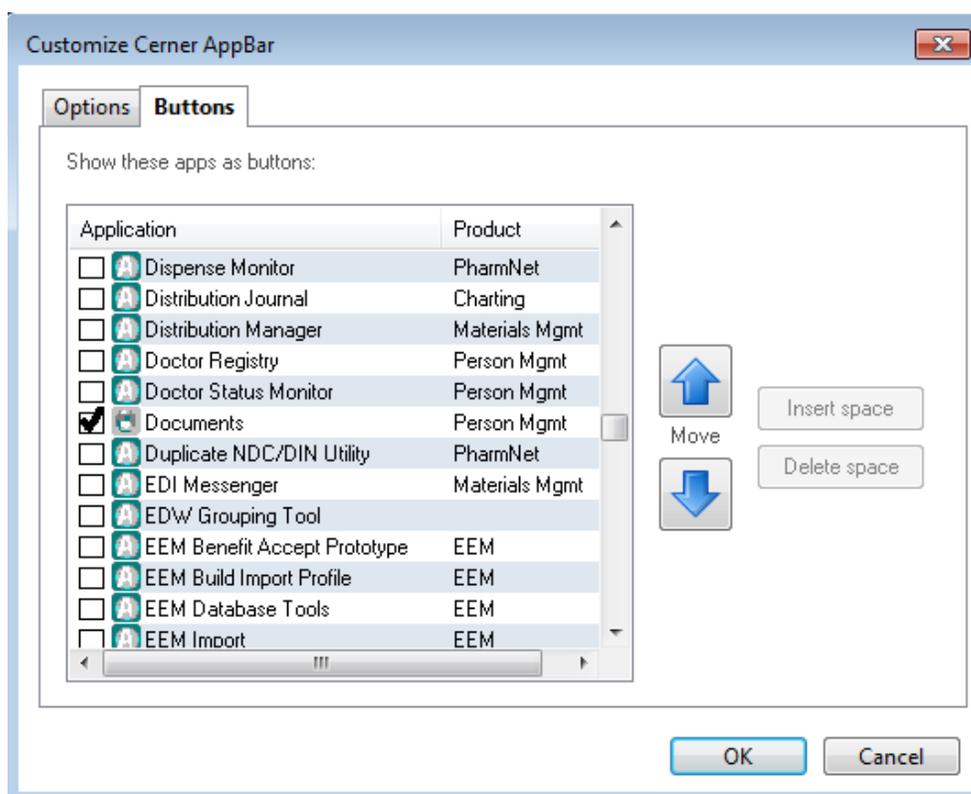

4. A white menu bar opens. Click the **AppBar** icon and select **Customize**.

5. On the **Options** tab, set your parameters. It is recommended to select **Always on Top** and **Allow Floating**. You can also select Large Buttons.

6. Click the **Buttons** tab. Click in the **checkbox** beside each **application** you want to access via the **AppBar**. Use the **up** or **down arrows** to the right of the application list to move the apps in the order you prefer. Use the **Insert** or **Delete Space** buttons to create space between each icon that will appear on the **AppBar**.

7. Click OK. View your customized **AppBar**. Click the applicable icon to launch an application.

Common Application Mapping
