

6/18/18

AMBULATORY - RADIOLOGY ORDERING PROCESS

- Scenario #1 – For all CT, MRI, US, Mammogram, Bone Density and Nuclear Med Radiology Orders: Leave the Order for Future Visit as **Yes**. This defaults to Yes on all exams *except* General X-Ray. Select the location it will be scheduled to be done at.

Details for **CT Abdomen and Pelvis w/ Contrast**

*Requested Start Date/Time: 06/14/2018 1332 EDT

*Priority: Routine

Reasons for Exam/Signs and Sym...
Special Instructions:

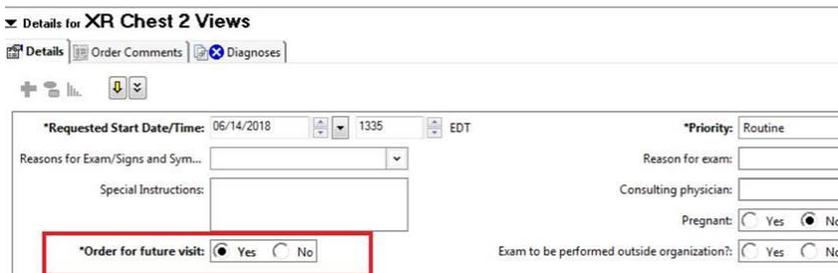

*Order for future visit: Yes No

Exam to be performed outside or... Yes No

Consulting physician:
Pregnant: Yes No

*Performing Location:
Greater Lansing Radiology
Lansing Imaging Center
Performed Outside McLaren

- Scenario #2 – For General X-Ray Orders: Select Order for future visit: **Yes** even if you are sending the patient to a location to have the exam done same day. Only select No if you perform the exam at your location.
 - Radiology will activate the order once patient presents to Radiology

Details for **XR Chest 2 Views**

*Requested Start Date/Time: 06/14/2018 1335 EDT

*Priority: Routine

Reasons for Exam/Signs and Sym...
Special Instructions:

*Order for future visit: Yes No

Exam to be performed outside organization?: Yes No

Reason for exam:
Consulting physician:
Pregnant: Yes No

- Please **do not** switch the “Order for future visit” to No – this is causing significant issues with the Radiology team being able to “see and act upon the order appropriately”
- Any order not placed as Future should be cancelled and re-ordered as **Future**.
 - An exception to this is general x-ray orders placed at MMP Urgent Care & Holt FP
