

## **THURSDAY, SEPT. 18 4 p.m. – 8 p.m.**

Karmanos Cancer Institute at McLaren Northern Michigan 560 W Mitchell Street Petoskey, MI 49770

Call (231) 487-4209, ext. 3 to make an appointment.

According to experts, men aged 55 to 69 should consider a prostate cancer screening.

A Prostate Specific Antigen (PSA) Test measures the levels of PSA in blood, a protein made by cells in the prostate, and higher levels in men are often associated with prostate cancer.

Take the first step towards preserving your well-being, call to register for a free screening today.
