CANCER INSTITUTE

KARMANOS' CLINICAL TRIALS PROGRAM OFFERS MORE TREATMENT OPTIONS TO YOUR PATIENTS

Cancer-fighting drugs that are available today exist only because they were thoroughly tested beforehand in clinical trials.

The Barbara Ann Karmanos Cancer Institute has one of the largest and best clinical trials program in the United States, giving patients better access to new cancer treatments. More than 100 promising new cancer therapies, which are not yet approved by the FDA, can be found at Karmanos through various clinical trials.

Karmanos has patients actively participating in more than 800 clinical trials, which are developed and sponsored by our own physicians and researchers, major pharmaceutical companies or national cooperative group programs funded by the National Cancer Institute (NCI).

As part of McLaren Health Care, we offer Phase II and Phase III trials at our locations throughout Michigan. In doing so, we're bringing patients greater access to more clinical trials.

OUR PHASE I CLINICAL TRIALS PROGRAM ASSISTS WITH NEW DRUG DEVELOPMENT

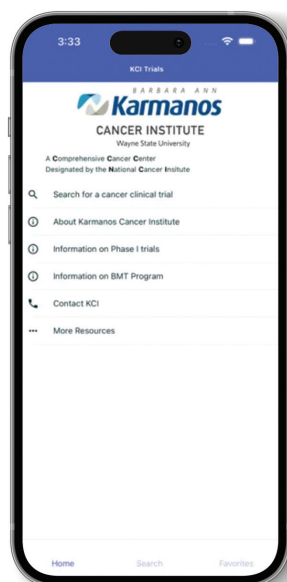

As part of our robust clinical trials program, Karmanos runs a Phase I Clinical Trials program. We are a participating site in the Early Therapeutics Clinical Trials Network (ET-CTN) of the NCI. The Phase I Clinical Trials program assists with early drug development.

DOWNLOAD OUR FREE CLINICAL TRIALS APP

To learn about cancer clinical trials available at Karmanos, access our free mobile app through iPhone® or Android™ mobile devices. Visit the App Store or Google Play store to download the app or go to karmanos.org/kcitrials.

KARMANOS' CLINICAL TRIALS APP FEATURES INCLUDE:

- Search capabilities for cancer clinical trials by disease site, keyword, protocol number, phase, principal investigator, or location
- The ability to save protocol information to your “favorites” and send via e-mail protocol information to a colleague or patient
- Links to other National Cancer Institute cancer resources

Colleagues,

Thank you for the trust and confidence you place in our physicians when you refer your patients to the Barbara Ann Karmanos Cancer Institute for oncology care.

Karmanos is one of only 57 National Cancer Institute-designated comprehensive cancer centers in the country. This prestigious designation recognizes that we are at the forefront of developing and translating scientific knowledge from promising laboratory discoveries into new treatments for your patients with cancer.

As part of McLaren Health Care, Karmanos is the largest cancer research and provider network in the state. In addition to our main location in Detroit, Karmanos has cancer treatment centers in Bad Axe, Bay City, Clarkston, Dearborn, Farmington Hills, Flint, Gaylord, Lansing, Lapeer, Mount Clemens, Mount Pleasant, Oxford, Petoskey, Pontiac, Port Huron, Roseville and Maumee, Ohio.

Across the state, our physicians uphold the same high-quality standards of performance measurement and evidence-based practice to ensure quality care that meets national standards. Your patients will receive the very best care and the most up-to-date treatments found anywhere when they see one of our doctors.

To refer your patient to Karmanos, visit our website at **karmanos.org/refer**.

This web page includes links on how to refer a patient by phone; access to our downloadable patient referral form; and how to make a referral request online. You can also refer new patients by sending an email to **newpt@karmanos.org** or by calling the dedicated referring physician line at 1-877-KARMANOS (527-6266).

Please feel free to reach out to physicians by calling their phone number listed inside if you wish to consult with them directly.

We are here to assist you and your patients who have been diagnosed with cancer. Thank you again for the trust you place in Karmanos.

Sincerely,

Boris C. Pasche, M.D., Ph.D., FACP
President & CEO
Barbara Ann Karmanos Cancer Institute

THE KARMANOS ADVANTAGE - SPECIALIZED CANCER CARE

The Barbara Ann Karmanos Cancer Institute, headquartered in Detroit, is the largest cancer center and research network in Michigan. We are recognized as one of the nation's leading cancer centers by the National Cancer Institute with a comprehensive cancer center designation. As part of McLaren Health Care, Karmanos offers cancer care close to home with treatment locations throughout Michigan and Northwest Ohio. We are exclusively focused on providing our patients with every resource to give them their best chance at a favorable outcome.

BONE MARROW AND STEM CELL TRANSPLANT (BMT) PROGRAM

Location(s): Detroit

Contact: 877-KARMANOS (877-527-6266)

The Bone Marrow & Stem Cell Transplant Multidisciplinary Program is one of only a select group nationwide reporting some of the best survival outcomes for related and unrelated stem cell transplantation, according to the Center for International Blood and Marrow Transplant Registry.

Patients who benefit most from a consult with our Bone Marrow Transplant Team include those with:

- Amyloidosis
- Aplastic Anemia
- Congenital metabolic disorders
- Hematologic malignancies (such as some forms of acute and chronic leukemia and lymphoma, multiple myeloma, Hodgkin's lymphoma)
- Hemoglobinopathy
- Myelodysplastic syndrome
- Myeloproliferative disorders
- Selected solid tumor such as testicular cancer and neuroblastoma
- Severe combined immune deficiency
- Thalassemias

Visit karmanos.org/bmt for more information.

CAR-T THERAPY

Location(s): Detroit

Contact: 877-KARMANOS (877-527-6266)

Karmanos played a pioneering role in developing CAR-T cell therapy, demonstrating its safety and effectiveness for patients with blood cancers. This therapy is a type of immunotherapy made from a patient's white blood cells, which are genetically modified to recognize and attack the patient's cancer cells. These armed cells are a living treatment that will remain in the body to help prevent the cancer from returning. Visit karmanos.org/cart for more information.

THERABIONIC P1 DEVICE

Location(s): Detroit and Farmington Hills

Contact: 877-KARMANOS (877-527-6266)

Karmanos was the first to offer the new patented, FDA-approved TheraBionic P1 device to treat eligible advanced hepatocellular carcinoma (HCC - liver cancer) in patients. The device is small and portable delivering radiofrequency electromagnetic fields throughout the entire body. The radiofrequency electromagnetic fields are tumor-specific and block the growth of tumor cells without affecting normal cells. For example, liver cancer frequencies are solely effective in the treatment of liver cancer.

Patients 18 and older with advanced HCC who have failed first- and second-line therapies are eligible for treatment with the TheraBionic P1 device.

Visit karmanos.org/therabionic for more information.

McLAREN PROTON THERAPY CENTER

Location(s): Flint

Contact: (855) MY-PROTON

The McLaren Proton Therapy Center in Flint is part of the Karmanos Cancer Network, which offers one of the most powerful and precise radiation oncology treatments available. Advantages include sparing healthy tissue and patients experiencing fewer side effects and complications as compared to conventional radiation. Proton therapy most often treats solid tumors in sensitive areas where conventional therapy may not be the best option. This includes tumors that are close to critical structures, difficult to treat cancers, and recurrent cancer after receiving previous radiation.

Proton therapy is not appropriate for all cancers, but is particularly applicable to treat certain cancers, including:

- Bladder Cancer
- Brain and Central Nervous System Cancer
- Breast Cancer
- Esophageal Cancer
- Head, Neck, and Skull Base Cancer
- Kidney Cancer
- Liver Cancer
- Lung and Thorax Cancer
- Lymphoma
- Pancreatic Cancer
- Pediatric Cancer
- Prostate Cancer
- Sarcoma
- Select Gynecological and Gastrointestinal Cancer
- Spine and Chest Wall Cancer
- Recurrent disease

Visit karmanos.org/protontherapy for more information.

GAMMA KNIFE

Location(s): Farmington Hills

Contact: 877-KARMANOS (877-527-6266)

Gamma Knife surgery is a clinically proven method to treat select intracranial locations – such as the brain, brain stem or the trigeminal nerve. Despite its name, Gamma Knife® Icon™ is not a blade that cuts, but highly sophisticated non-invasive technology that uses radiation to damage targeted tissue in a very precise manner.

The decision to use a Gamma Knife depends on not only where the tumor is, but also the specific characteristics of the tumor, as determined by the radiation oncologist. Gamma Knife® Icon™ is used to treat:

- Metastatic brain tumors
- Neurologic disorders including trigeminal neuralgia, and vascular malformations
- Non-cancerous tumors in the brain including meningiomas or acoustic neuromas
- Some primary brain tumors

For areas of the brain where standard surgical treatment is not advisable or even possible, the Gamma Knife® Icon™ can be a lifesaver.

CLINICAL TRIALS

Location(s): Detroit and the Network

Contact: 877-KARMANOS (877-527-6266)

Every eligible patient can participate in therapy in one of the most robust clinical trial programs in America. Our program is nationally renowned and gives our patients access to more than 250 promising, new cancer-specific treatments often not found at other hospitals or health organizations.

PHASE I CLINICAL TRIALS - DETROIT ONLY

These trials are the first stage of clinical trials in the careful process of developing new cancer treatments.

A Phase I trial is often the first time a drug has been given to human, or the first time a new drug has been given to a human in combination with another standard cancer treatment.

A clinical trial specialist and physician perform a screening process to determine whether a patient can participate in a specific trial. The Eisenberg Center for Translational Therapeutics houses the Phase I Clinical Trials Program at the Karmanos Cancer Center in Detroit.

The program is the only one of its kind in Michigan. Members of Karmanos' Phase I Clinical Multidisciplinary Team conduct clinical research studies with new investigational cancer drugs.

To view actively recruiting trials, visit karmanos.org/clinicaltrials.

GENETIC TESTING

Location(s): Virtual or in person

Contact: 877-KARMANOS (877-527-6266)

Karmanos genetic counseling specialists are ready to evaluate and offer assessments on personal and family cancer history, and the risk other family members may have in getting cancer. Genetic testing can also help patients understand appropriate and tailored screening and more effective treatment decisions.

This service is useful for those having any of the following:

- A personal or family history of a rare or unusual cancer, such as male breast cancer
- A personal or family history of cancer under the age of 50
- A relative with more than one type of cancer
- Several relatives with cancer

Visit karmanos.org/genetics for more information.

SCREENING AND PREVENTION PROGRAM

Location(s): Detroit and the Network

Patients who participate in the Screening and Prevention Program at Karmanos will receive unmatched attention from a specialized team of experts. We use the latest technology and guidelines to make sure that our patients receive accurate and timely results.

For a list of locations, visit karmanos.org/cancerscreening.

REFER WITH EASE

Karmanos' Referring Physician Office (RPO) provides direct and efficient concierge services to physicians and their staff seeking clinical care for their patients at Karmanos' Headquarters location.

Together, we can give patients their best chance at beating cancer.

Contact the RPO at karmanos.org/refer or
1-877-KARMANOS (1-877-527-6266).

OUR VISION

A world free of cancer.

OUR MISSION

To lead in transformative cancer care, research and education through courage, commitment and compassion.

SETTING THE STANDARDS FOR CANCER CARE

From groundbreaking research to the most up-to-date therapies and individualized treatment plans, Karmanos is truly leading the fight against cancer.
