CANCER INSTITUTE

Wayne State University

Michigan's **LARGEST** Cancer Care Network

Colleagues,

Thank you for the trust and confidence you place in our physicians when you refer your patients to the Barbara Ann Karmanos Cancer Institute for oncology care.

Karmanos is one of only 45 National Cancer Institute-designated comprehensive cancer centers in the country. This prestigious designation recognizes that we are at the forefront of developing and translating scientific knowledge from promising laboratory discoveries into new treatments for your patients with cancer.

As part of McLaren Health Care, Karmanos is now part of the largest cancer research and provider network in the state. In addition to our locations in Detroit and Farmington Hills, Karmanos has cancer treatment centers in Bay City, Bloomfield Hills, Clarkston, Flint, Gaylord, Lansing, Lapeer, Mt. Clemens, Mt. Pleasant, Petoskey, West Branch and coming soon to Port Huron.

Across the state, our physicians uphold the same high-quality standards of performance measurement and evidence-based practice to ensure quality care that meets national standards. Your patients will receive the very best care and the most up-to-date treatments found anywhere when they see one of our doctors.

To refer your patient to Karmanos, visit our Web site at www.karmanos.org/refer-patient. This Web page includes links on how to refer a patient by phone; access to our downloadable patient referral form; and how to make a referral request online. You can also refer new patients by sending a message to newpt@karmanos.org or you can call **1-800-527-6266** for information.

Please feel free to reach out to physicians by calling their phone number listed inside if you wish to consult with them directly. This guide is updated quarterly.

We are here to assist you and your patients who have been diagnosed with cancer. Thank you again for the trust you place in Karmanos.

Sincerely,

A handwritten signature in black ink that reads "Gerold Bepler".

Gerold Bepler, M.D., Ph.D.
President & Chief Executive Officer

Karmanos' Clinical Trials Program offers more treatment options to your patients

Cancer-fighting drugs that are available today exist only because they were thoroughly tested beforehand in clinical trials.

The Barbara Ann Karmanos Cancer Institute has one of the largest and best clinical trial programs in the United States, giving patients better access to new cancer treatments. More than 90 promising new cancer therapies, which are not yet approved by the FDA, can be found at Karmanos through various clinical trials.

Karmanos has patients actively participating in more than 800 clinical trials, which are developed and sponsored by our own physicians and researchers, major pharmaceutical companies or national cooperative group programs funded by the National Cancer Institute (NCI).

Now that we are part of McLaren Health Care, we are offering Phase II and Phase III trials at our locations throughout Michigan. In doing so, we're bringing patients greater access to more clinical trials.

Our Phase I Clinical Trials Program assists with new drug development

As part of our robust clinical trials program, Karmanos runs a Phase I Clinical Trials program. We are a participating site in the Early Therapeutics Clinical Trials Network (ET-CTN) of the NCI. Only 10 ET-CTN grants were awarded in North America with Karmanos being the only site in Michigan. The Phase I Clinical Trials program assists with early drug development.

Download our free Clinical Trials App

To learn about cancer clinical trials available at Karmanos, access our free mobile app through your iPhone® or Android™ mobile device. Just visit the App Store or Google play store to download the app or go to www.karmanos.org/KCITrials.

Karmanos' Clinical Trials App features include:

- Search capabilities for cancer clinical trials at Karmanos by disease site, keyword, protocol number, phase, principal investigator, or location
- The ability to save protocol information to your "favorites" and send via e-mail protocol information to a colleague or patient
- Links to other National Cancer Institute cancer resources

We also invite you to sign up for our monthly Clinical Trials Newsletter to keep up on the latest trials available. Visit www.karmanos.org/subscriptions and scroll down to Clinical Trials Newsletter link.
