

McLaren Greater Lansing and MSU Health Care have partnered to bring a state-of-the-art breast imaging center to the greater Lansing community, located at McLaren's hospital campus. The Breast Imaging Center brings a comprehensive approach to diagnosing breast cancer and streamlining treatment pathways, all in a comforting environment for patients.

At the Breast Imaging Center, patients have convenient access to the latest advances in breast imaging technologies with reports that are generated within 24 hours. Those who require breast biopsies are able to schedule within a week of their diagnostic imaging results.

The Breast Imaging Center is designated as a Breast Imaging Center of Excellence by the American College of Radiology (ACR). In addition to the mandatory mammography accredition program, the Breast Imaging Center is also accredited in all voluntary breast-imaging programs and modules.

## **CONTACT US**

Fax: (517) 975-6430

MSU Health Care at McLaren Greater Lansing Breast Imaging Center 3520 Forest Road, Third Floor Lansing, MI 48910 Phone: (517) 975-6425

mclaren.org/lansing\_breastimaging

For more information or to refer to the Breast Imaging Center, call (517) 975-6425.

## **SERVICES INCLUDE:**

- Four 2D/3D mammography systems
- Bone density testing
- Ultrasound units with elastography for breast exams
- Ultrasound-guided biopsy
- Pre-surgical breast localization
- · Stereotactic core biopsy
- Two breast biopsy systems, including prone and upright

## **RESEARCH:**

MSU scientists at Precision Health Program and the Department of Radiology are leading a cutting-edge translational research project for primary prevention of breast cancer. The research team in cancer modeling, fabrication of nanoparticle-based contrast agents and interventional radiology are being applied to develop an image-guided intraductal delivery procedure for epithelial cell ablation.

This innovative procedure could provide a local less-invasive alternative intervention to prophylactic mastectomy for highrisk individuals in the near future. For more information, call MSU Radiology Department at (517) 335-0120.
