

COVID-19 TESTING PROTOCOL

Fall 2020

This testing is for procedures only. For all other testing please proceed to McLaren Greater Lansing – Mid-Michigan Physicians Southside Urgent Care at 5525 S. Martin Luther King Jr. Blvd.

Preoperative nurses will contact you to schedule your testing 5-7 days prior to surgery. Please see the location schedule on the back of this page. A preoperative nurse will contact you again 1 day before your procedure with screening questions and the results of your test. Please do not call the lab for results, all preoperative notifications are handled by our preop nursing staff.

When you arrive for your COVID-19 preoperative testing, proceed to the patient entrance.

Visitor restrictions are in place to protect our patients and staff, and you will be screened as you come in. Patients are provided with an ear loop mask upon entry and are required to wear it at all times while on site.

How to prepare for your procedure:

- Monitor your temperature twice a day for 7 days before your procedure
- Practice social distancing for up to 7 days prior to your procedure
- If possible, wear a face covering when in public spaces with crowds for up to 7 days prior to your procedure
- Continue to wash your hands or use hand sanitizer frequently
- Reach out immediately to your provider if any symptoms arise

How McLaren is keeping employees and patients safe:

Separating patients with symptoms

Symptom screenings at entrances

Increased cleaning of frequently touched surfaces

Personal protective equipment used by frontline staff

Temporary visitor restrictions to protect patients and staff
