

## CERNER FLASH

## Ambulatory - Anticoagulation Workflow Page

June 30, 2021

## **Anticoagulation Information Overview**

**Enhancement:** The **Anticoag Workflow** page will now be available to all Clinical Staff and Cardiology Providers, which will display Anticoagulation results in one convenient location. The **Anticoagulation Therapy** PowerForm can also be easily accessed from this workflow page. Any previous documentation that was entered on the PowerForm and related lab results will display within this view.

**Prior to this enhancement:** The **Anticoag WorkIfow** page was only available in the Message Center Summary View and not within the patient's chart workflow pages.

**Ambulatory Positions Impacted:** Physician - Cardiology, Physician - Primary Care, Physician - Internal Medicine, Physician Assistant, Nurse Practitioner and supporting Clinical Staff.

## Access the Anticoagulation Information ViewPoint

- 1.) From within the patient's chart, select the **Plus +** icon on the **Ambulatory Summary** page.
  - a. Select the Anticoag Workflow view.

- 2.) The Anticoagulation Information that is available for the patient will display.
  - a. Use the filters on the right to view items within a specific timeframe.
  - b. Select a result to view detailed information on the right.
  - c. Select the dropdown arrow to launch the Anticoagulation Therapy PowerForm if needed.
