## Ambulatory: Access Change for OB Clinic Positions in Cerner

March 13, 2024

Access Change for OB Clinic Positions in Cerner Overview

**Effective 3/14/2024:** The ability to Accept and Reject order proposals in Cerner will be removed for users in an **OB Clinic MA/LPN** or **OB Clinic MA/LPN Planned Proposed** position. This access is being removed because <u>all</u> order proposals must be signed by the Provider <u>before</u> clinical staff can act on them.

**Prior to Change (Current State):** All OB Clinic MA/LPN positions had access to right-click on a proposed order on the Orders Page and Accept or Reject it <u>prior</u> to the Provider signing the order.
