Commonwell Placement on Banner Bar

Issue: The Commonwell indicator on the Banner Bar was not functioning correctly due to placement. It was competing for space with another entry on the Banner Bar.

Fix: The Commonwell indicator on the Banner Bar will be moved to a different location, allowing it to function correctly. The link can be clicked if documents are available, and the user will be routed to the Outside Records mpage component.

Current location CommonWell: Loading...	Age:20 years Future Appointment: Code Status:<No Data Available> Primary Insurance:BC - BCN	New location Sex:Female Prereg FIN: 7000000928399 Loc: LN04 Rad GL MRN:300001655543
