Results Review: Result Legend Color Indicators Enhancement October 10, 2023

Result Legend Color Indicators Overview

Enhancement effective 10/16/23: The Result Legend color indicators in Results Review will be updated for all Cerner positions. This will ensure that every user sees the same color indicators when reviewing results. It will also make it easier for users to differentiate between critical, high, low, and abnormal test results.

Prior to this enhancement: The color indicators in Results Review displayed differently depending on the user's position. Some positions currently see model Cerner build and/or all red color indicators (other view) as described below:

		Other View		Enhanced View (New)		
P Result Legend X		P Result Legend ×		P Result Legend X		
Colors Critical Positive High Low Abnormal Default	Indicators (!) Critical (+) Positive (H) High (L) Low (A) Abnormal (c) Corrected • Comment (high importance) • Comment (medium importance) • Comment (low importance)	Colors Critical Positive High Low Abnormal Default	Indicators (I) Critical (+) Positive (H) High (L) Low (A) Abnormal (c) Corrected • Comment (high importance) • Comment (nedium importance) • Comment (low importance)	Colors Critical Positive High Low Abnormal Default	Indicators (I) Critical (+) Positive (H) High (L) Low (A) Abnormal (c) Corrected * Comment (high importance) * Comment (medium importance) * Comment (low importance)
