

What Business Associates Need to Know

Are you a Business Associate?

A Business Associate (BA) is a person or an organization who, on behalf of McLaren (but other than as members of McLaren's workforce) performs a function or activity on behalf of McLaren that involves the use or disclosure of protected health information (PHI). Business Associates include subcontractors who create, receive, maintain or transmit PHI for, or on behalf of the BA. Examples of Business Associates include those who provide legal, actuarial, consulting or other services to McLaren.

- Comply with those state or federal laws that are more restrictive than the HIPAA requirements;
- Limit the use and disclosure of PHI to the minimum amount necessary, except for treatment purposes and other limited exceptions; and
- Cooperate with compliance investigations and/or reviews of the Secretary of Health and Human Services.

What Business Associates Must Do:

Business Associates are required under the HIPAA Rules and HITECH (Health Information Technology for Economic and Clinical Health) Act to:

- Comply with the HIPAA Security Rule provisions requiring the implementation of administrative, physical and technical safeguards for electronic PHI, including designating a Security Official, developing related policies and procedures, and training staff;
- Execute and comply with Business Associate Agreements;
- Execute agreements with subcontractors (those persons or entities to whom the Business Associate delegates a function, activity or service, other than in the capacity of a workforce member of the business associate);
- Respond immediately to potential violations and report breaches to the covered entity (McLaren);
- Comply with patient rights under HIPAA, including the rights of access, amendment and accounting of disclosures;

Penalties for Non-Compliance

The penalties for violating HIPAA/HITECH Rules vary depending upon the degree of culpability of the Business Associate and/or subcontractor, and can range from \$100 to \$50,000 *per violation*.

Where Can I Learn More?

You can learn more at the U.S. Department of Health and Human Services website: www.hhs.gov/hipaa. For additional questions, please contact Privacy@mclaren.org
