

Venipuncture Powerform Updates

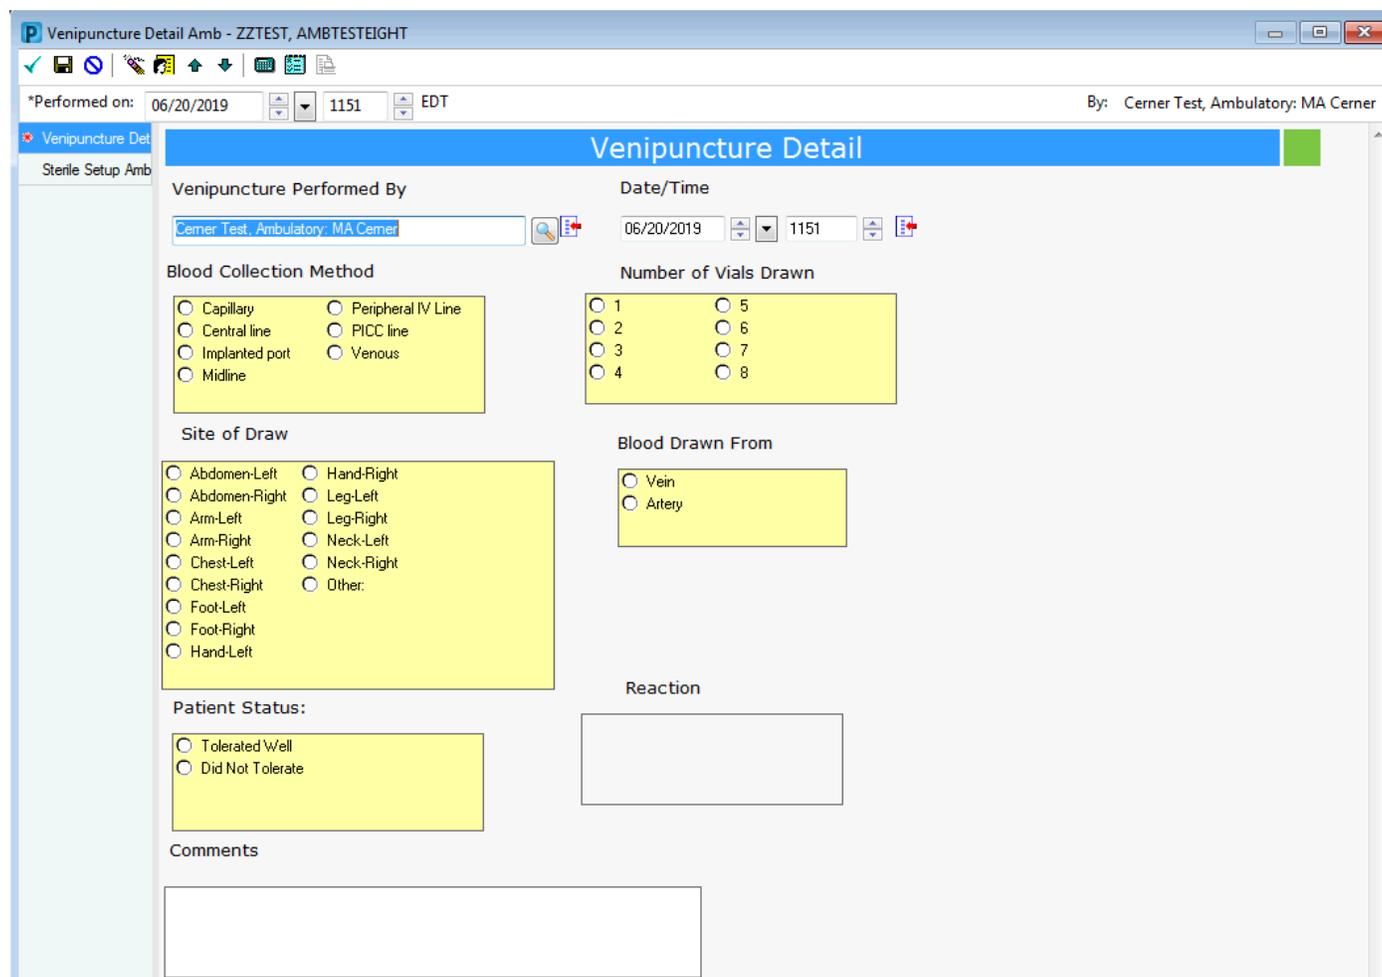

6/##/2019

Audience: Any users who utilize the venipuncture powerform/conduct blood draws.

Changes: The Venipuncture powerform has been updated to include additional data elements to support billing. All questions within the form are required. **Powerform Features:**

1. **Site of Draw-** Selecting “Other” provides a free text box to prompt for the user to indicate the site.
2. **Patient Status-** Selecting “Did Not Tolerate” causes the **Reaction** field to be a required field.
