Message Center Results Routing for “Day Surgery” Encounters

Audience: Providers in the following positions:

Nurse Practitioner
Physician - Allergy/Immunology
Physician – Gastroenterologist
Physician – IM
Physician - Primary Care
Physician – Urologist
Physician – Vascular
Physician Assistant
Physician – Pediatrician
Physician - Primary Care OB

Change:

Results that are added to “Day Surgery” FINS to flow back to the Message Center for the Ordering Provider to endorse. Prior to this change, the results went directly to the patient chart with no notification to Message Center.

- **Note:** *All other Ambulatory Providers not listed within this Flash will not be impacted by this change, as they already receive these results to their Message Center.*

Impact: Providers will follow the normal protocol to endorse results received through Message Center.
