## Social History Update - Electronic Cigarette/Vaping

Tuesday May 19th, 2020

### Workflow Changes Overview

**Update:** Effective now, an **Electronic Cigarette/Vaping** section has been added to the **Social History** component within the Intake Form. This is a required field so that all adult and teenage patients can be assessed for use of these products.

**Intended Audience:** All Ambulatory Clinical Staff.

### Documenting Electronic Cigarette/Vaping

As part of the intake process, Clinical Staff must document the patient's Electronic Cigarette/ Vaping history.

- 1) From the **Intake Form**, navigate to the **Summary** tab, then scroll down to **Social History**.
- 2) Under Social History, the required Electronic Cigarette/Vaping category is located under Tobacco.
- 3) Right-click on **Electronic Cigarette/ Vaping** and select **Add Electronic Cigarette/ Vaping History** to begin documenting.

The screenshot displays the Cerner EHR interface for an Ambulatory Comprehensive Intake form. The 'Social History' section is active, and the 'Electronic Cigarette/Vaping' category is highlighted in red. A red arrow points to the 'Add' button next to this category. The 'Electronic Cigarette/Vaping' form includes the following fields:
