

MEET McLAREN

ELECTROPHYSIOLOGY SERVICES

ELECTROPHYSIOLOGY SERVICES

The electrophysiology (EP) program at McLaren Greater Lansing's Heart and Vascular Institute offers a wide range of EP services for your patients, focusing on diagnosing and treating abnormal heart rhythms, known as arrhythmias. The EP lab is equipped with the latest advanced technology, ensuring comprehensive care and the best treatment options available.

EP PROCEDURES

- Cardioversions
- Diagnostic electrophysiologic studies
- Catheter ablation of supraventricular tachycardias, including Wolf-Parkinson-White Syndrome, AV nodal reentrant tachycardia, and atrial tachycardia
- Catheter ablation of atrial fibrillation (AFib) and atrial flutter
- Catheter ablation of complex ventricular arrhythmias, including PVCs and ventricular tachycardia
- Cardioneuroablation and autonomic modulation therapy

DEVICE PROCEDURES AND IMPLANTATIONS

- Implantable electronic cardiac monitors
- Traditional pacemaker implantation
- Leadless pacemaker implantation
- Conduction system pacing devices
- Implantable cardioverter defibrillator implantation; traditional and subcutaneous
- Cardiac resynchronization
- Cardiac contractility modulation (CCM therapy)
- Heart failure implantable device therapies
- Pacemaker and implantable cardiac defibrillator testing
- Left atrial appendage occlusion device therapy (LAAO)

WELCOME, DR. ERIC GOOD Electrophysiologist

Dr. Good has joined McLaren Greater Lansing Cardiovascular Associates and is providing electrophysiology services. He received his doctor of osteopathic medicine and surgery degree from Michigan State University and completed his fellowship in cardiovascular medicine and advanced clinical cardiac electrophysiology at Beaumont Hospital and the University of Michigan Health System. He comes to McLaren from Ascension in Grand Blanc.

WE WELCOME YOUR REFERRAL

You can send referrals through Cerner or visit mclaren.org/lansingcareconnect to fill out a referral form and fax to (517) 347-8393. Please include the following information:

- Office visit notes (pertaining to the reason for referral, including all histories and medications).
- Current advanced imaging (within the last year).
- Current patient demographics.
- Any prior authorizations needed.
