Colonoscopy Prep Instructions:
SUPREP

IMPORTANT - Please Read Both Pages of These Instructions at Least 1 Week Before Your Colonoscopy.

A Pre-Endoscopy nurse will call you within 24-72 hours of your procedure for an important health history interview.

Key Instructions:
Your doctor has scheduled you for a colonoscopy. To have a successful colonoscopy, your colon must be clear of any stool. Follow all of the instructions in this handout EXACTLY as they are written. If you do not follow the directions, your procedure may be canceled.

- SUPREP is a split-dose (2-day) regimen. A total of 2 6-ounce bottles are required for a complete prep. You will take the liquid prep is two doses over 2 consecutive days. Water must be consumed with each dose of SUPREP, and additional water must be consumed after each dose.
- Buy your bowel preparation at least 5 days before your colonoscopy.
- A responsible family member or friend MUST drive you home from the procedure. You are NOT ALLOWED to drive or leave the Endoscopy Center ALONE. If you do not have a responsible driver (family member or friend) with you to take you home, your exam will need to be rescheduled.

Medications:
Before your colonoscopy some of the medicines you take may need to be stopped or adjusted temporarily, please check with your primary physician for instructions.

- You may take your regular pills with sips of water up to 3 hours before your procedure. This includes most pain pills. Pain pills to STOP taking 3 days prior to your procedure include Motrin, Ibuprofen, Daypro, Indocin, Advil, Naprin, Naproxen, Aleve, Feldene, Voltaren, Celebrex, Relafen, Mobic, Lodine, Toradol, Ketoprofen, and Arthrotec.
- DO NOT TAKE IRON PILLS FOR 3 DAYS BEFORE YOUR PROCEDURE.
- If you are prescribed blood thinners, ask your Primary Care Provider at least 2 weeks before the scheduled test if and when you should stop taking these medications. Blood thinners include Aggrastat (tirofiban), Aggrenox, Brilinta (ticagrelor), Coumadin (warfarin), Eliquis (apixaban), Heparin, Lovenox, Persantine, Plavix (clopidogrel), Pradaxa (dabigatran), Savaysa, and Xarelto (rivaroxaban).
- If you are taking Aspirin 81 mg or less, you may continue. Do NOT take more than 81 mg daily for 7 days prior to your procedure.
- If you are diabetic, you will be given instructions about diabetic medications during the pre-endoscopy interview.

FIVE (5) Days Before Your Colonoscopy You Need to Buy the Following:
- SUPREP Bowel Prep Kit. This prescription should have been sent to your pharmacy.
ONE (1) Day Before Your Colonoscopy
